Totality and Infinity Emmanuel Lévinas, 1969 First published in English by Duquesne in 1969 this has become one of the classics of modern philosophy *Totality and Infinity* Emmanuel Levinas, 1980-02-29 Paradigms in Jewish Philosophy Raphael Jospe, 1997 Jewish Philosophy is multicultural and multidisciplinary marking the convergence of Jewish and non Jewish cultures and the interaction of the philosophic method with Jewish thought This book examines the writings of several paradigms in Jewish philosophy loyal to the teachings of Jerusalem and eager for the wisdom of Athens The Foundation and Application of Moral Philosophy Hendrik Opdebeeck, 2000 Paul Ricoeur 1913 prominent French philosopher is one of the most versatile thinkers of our time Moreover he is known to be an extremely gifted lecturer who is able to set forth ethical issues very lucidly His erudition and profundity are also evident in the two texts that are central to this book i e The Problem of the Foundation of Moral Philosophy and Can Forgiveness Heal These lectures constitute a remarkable effort on the part of Ricoeur to find an original and more radical foundation of ethics than can be expressed in any law He demonstrates quite convincingly why the law is not the primary category of ethics He further deals with the question of what might be the evangelical orientation of ethics Finally he sheds light on the specific role of forgiveness The two lectures by Ricoeur which have been translated here from French into English and to which an introduction and three multi disciplinary commentaries have been added not only elucidate a fundamental question in the field of ethics but in a more general sense they are also fine examples of philosophical reasoning A Companion to Latin American Philosophy Susana Nuccetelli, Ofelia Schutte, Otávio Bueno, 2013-04-29 This comprehensive collection of original essays written by an international group of scholars addresses the central themes in Latin American philosophy Represents the most comprehensive survey of historical and contemporary Latin American philosophy available today Comprises a specially commissioned collection of essays many of them written by Latin American authors Examines the history of Latin American philosophy and its current issues traces the development of the discipline and offers biographical sketches of key Latin American thinkers Showcases the diversity of approaches issues and styles that characterize the field Twilight of Jewish Philosophy Wright, Dr Tamra

Wright, 2013-12-19 First Published in 1999 Emmanuel Levinas 1906 1995 is widely acknowledged to be one of the great Jewish thinkers of the 20th century This book explores the relationship between Levinas ethical philosophy and his understanding of Judaism Through close readings of his major texts the significance of key terms in Levinas work is clarified

The Rhetoric of Failure Ewa P?onowska Ziarek, 1995-01-01 This book makes a significant and needed contribution to post structural philosophy and literary theory In this impressive analysis that delicately weaves together philosophical and literary texts Ewa Ziarek powerfully and persuasively demonstrates that the rhetoric of the failure of traditional subject centered rationality does not lead to nihilism or nominalism Kelly Oliver University of Texas at Austin

The Universal Machine Fred Moten, 2018-07-26 Taken as a trilogy consent not to be a single being is a monumental accomplishment a brilliant theoretical intervention that might be best described as a powerful case for blackness as a category of analysis Brent Hayes Edwards author of Epistrophies Jazz and the Literary Imagination In The Universal Machine the concluding volume to his landmark trilogy consent not to be a single being Fred Moten presents a suite of three essays on Emmanuel Levinas Hannah Arendt and Frantz Fanon in which he explores questions of freedom capture and selfhood In trademark style Moten considers these thinkers alongside artists and musicians such as William Kentridge and Curtis Mayfield while interrogating the relation between blackness and phenomenology Whether using Levinas s idea of escape in unintended ways examining Arendt s antiblackness through Mayfield s virtuosic falsetto and Anthony Braxton s musical language or showing how Fanon s form of phenomenology enables black social life Moten formulates blackness as a way of being in the world that evades regulation Throughout The Universal Machine and the trilogy as a whole Moten s theorizations of blackness will have a lasting and profound impact

Spinoza and the Philosophy of Love Michael Strawser, 2021-08-27 In Spinoza and the Philosophy of Love Michael Strawser provides a new reading of Spinoza as a philosopher of love and one who centers his thought on an ethically qualified conception of noble love Strawser examines the threefold conception of love found in Spinoza s Ethics and argues that what is most important for Spinoza s philosophy is a unified conception of love centered on nobility amor sive generositas This active conception of love can conquer hatred and bring people together Situating Spinoza s philosophy of love within both Jewish and Western philosophical traditions Strawser investigates questions in the philosophy of love together with Spinoza and thinkers such as Saadia Gaon Maimonides Leone Ebreo Tullia d Aragona and Ren Descartes He shows how Spinoza deepens our understanding of amorous perfectionism and how this reading of Spinoza s philosophy of love serves as both a corrective to problematic readings such as those found in Isaac Bashevis Singer and Emmanuel Levinas and a counter to speciesism With careful examination of Spinoza s writings Strawser demonstrates that the goal of his philosophy is best understood as the love of other people who are to be helped and united with in friendship Ultimately Spinoza s philosophy of love calls for collective nobility
