**Rwanda State of Environment and Outlook, 2009 ,2009      Tourism and Development in Sub-Saharan Africa**

Marina Novelli,2015-09-16 Over the past 20 years the perception of tourism as an effective contributor to socio economic development in the developing world has propagated with many viewing tourism as a provider for poverty alleviation and towards other UN Millennium Development Goals Over the same period readers have become familiar with the paradoxes complexities and inequalities of tourism in relation to development wealth creation growth redistribution governance and hosts guests relationships This volume further extends this critical debate with a much needed cohesive publication on Sub Sahara Africa SSA In an era of fluctuating tourist arrivals at global level the growth of tourism in SSA requires deeper consideration in terms of its inconsistent and questionable implications at local level Taking as a central theme the debate on whether tourism should be used in development efforts this book examines the way in which tourism has controversially become the way forward to development in several SSA locations and assesses bottlenecks to sustainable development as well as dilemmas and challenges faced by those SSA destinations seeking to achieve development through tourism It offers an explicit set of chapters adopting a multi disciplinary approach drawing upon tourism studies human geography sociology anthropology political economy development and environmental studies and integrates case studies authored by local African practitioners and academics to produce a book that gave voice to local experts on local realities Combining an overview of key theories concepts contemporary issues and debates as well as practical insights from a wide range of regions in SSA this book will be a valuable resource for those investigating the role of tourism in development      *Tourism, Poverty and*

*Development* Andrew Holden,2013-07-18 This book provides a holistic explicit and detailed introduction to the relationship of poverty and tourism development within the context of developing countries The book is divided into three distinct sections progressing from an evaluation of the key concepts the causal factors of poverty and how tourism is being implemented in policy and practice to reduce poverty to the relationship of tourism and poverty in the future The theoretical framework inherent to the text is inter disciplinary incorporating tourism geography politics economics environmental studies development studies sociology and history literature to provide the reader with a range of perspectives from which to explore the key issues of the tourism and poverty relationship It integrates examples and original case studies from varying geographical developing regions including Latin American Asia and Africa to show practical insights into tourism s role in poverty alleviation To encourage reflection on the main themes addressed and critical thinking Think points discussion questions and links to further reading are included in each chapter      **Transformational Tourism** Yvette

Reisinger,2015-08-14 Transformational Tourism deals with the important issue of how travel and tourism can change human behaviour and have a positive impact on the world The book focuses on human development in a world dominated by post 9 11 security and political challenges economic and financial collapses as well as environmental threats it identifies various

Congress. Senate. Committee on Foreign Relations. Subcommittee on African Affairs, 2008

*Foreign Direct Investment as a Tool for Poverty Reduction in Developing Countries* Ronald K.S. Wakyereza, 2019-10-15 The textbook experience of poverty can be witnessed in a number of developing countries in Sub Saharan Africa South East Asia and Latin America Accordingly Foreign Direct Investment FDI has been identified as an important tool for poverty reduction as it is noted to accelerate economic growth and employment in a nation and is currently an essential issue for countries such as Uganda This book finds that Ragnar s 1953 Vicious Circle of Poverty remains undisputed even today showing that attracting FDI is not the end but that a nation s absorption capacity is equally paramount The implications of the FDI frog leap theory for developing countries and the Community Capital Absorption Capacity Development CCACD framework provide plausible poverty reduction approaches in the 21st century Without such measures bringing an end to poverty is likely to elude governments and multinational corporations in developing countries      **Problematic Wildlife II** Francesco Maria Angelici, Lorenzo Rossi, 2020-05-07 In a world where habitats are constantly changing and the impact of anthropization on the environment is increasingly intense interactions between human and wildlife are becoming more and more complex Some species pose problems for human activities while many others need to be helped in order to continue to exist This book follows the first volume called Problematic Wildlife edited by F M Angelici and published by Springer in 2016 which has had considerable success with readers and critics The volume includes 21 chapters divided into 7 parts devoted specific topics which are approached in a multidisciplinary way There are both review chapters and specific cases always bearing in mind the interest for an international audience The book is useful both for scientists wildlife specialists

conservationists zoologists ecologists university students nature managers and for those who live in contact with wildlife and its problems such as farmers shepherds hunters urban planners and staff of parks and nature reserves Its ultimate goal is to offer scientific and pragmatic approaches to manage each categories of problematic species
