Arab Countries in Transition - An Update on Economic Outlook and Key Challenges International Monetary Fund,2014-04-16 Despite uneven progress there are early signs of improvement and macroeconomic stabilization in some Arab Countries in Transition. ACTs 1. However persistently weak growth and subdued private investment amid heightened regional insecurity continue to weigh on the task of reducing unemployment. This calls for accelerated reform efforts by the authorities to achieve higher more inclusive and more private sector led growth supported by external partners. In addition mobilizing affordable external financing could help boost well implemented public investment and provide a short term impetus to growth and employment thereby stabilizing difficult socio political conditions on the ground and providing space for deeper structural reforms.

Arab Countries in Transition - Economic Outlook and Key Challenges International Monetary Fund,2014-06-10 In spite of deepening and spreading conflicts in the region as well as in many cases a challenging internal socio political environment the Arab Countries in Transition Egypt Jordan Libya Morocco Tunisia and Yemen have broadly maintained macroeconomic stability. At the same time however their economies are not delivering the growth rates needed for a meaningful reduction in unemployment in particular for the youth and women. Notwithstanding diversity of conditions countries should quickly advance structural reforms to foster higher and more inclusive growth and continue to strengthen fiscal and external buffers to maintain stability amid heightened uncertainty. Coordinated support from the international community will be crucial in the form of financing improved trade access and capacity building assistance.

Middle East and Central Asia Dept., 2014-10-27 This issue discusses economic developments in the Middle East North Africa Afghanistan and Pakistan MENAP which continue to reflect the diversity of conditions prevailing across the region Most high income oil exporters primarily in the GCC continue to record steady growth and solid economic and financial fundamentals albeit with medium term challenges that need to be addressed In contrast other countries Iraq Libya and Syria are mired in conflicts with not only humanitarian but also economic consequences And yet other countries mostly oil importers are making continued but uneven progress in advancing their economic agendas often in tandem with political transitions and amidst difficult social conditions In most of these countries without extensive economic and structural reforms economic prospects for the medium term remain insufficient to reduce high unemployment and improve living standards Rich World, Poor World Ali A. Allawi, 2024-04-23 A landmark history of the world economic order exploring how developing countries have fought to escape impoverishment Over the past two decades experiments in neoliberal economics have opened up a chasm of inequality between the Global South and the West Development advice from richer nations has led to social upheaval political unrest environmental degradation and even the creation of a new underclass Brutal extremes of wealth and poverty are now commonplace Ali A Allawi traces the evolution of the world economic order from the late imperial era to the present day Shedding light on continuing controversies Allawi shows how the process of development has been hindered at every turn from poor leadership and lost opportunities to widespread corruption In doing so he argues that the current neoliberal consensus is only the most recent of a series of failed policy imperatives Covering issues in the Global South as well as failures in the West this definitive account offers an impassioned

and authoritative call for change Young Generation Awakening Edward A. Sayre, Tarik M. Yousef, 2016-06-28 The street protests that erupted in Tunisia in December 2010 and spread quickly throughout the Middle East surprised not only the entrenched dictators of the region but also international observers who collectively had taken for granted the durability of Middle Eastern authoritarianism Specifically the Arab Spring uprisings debunked the prevailing notion that youth were disengaged from political life by their economic exclusion and tight regime control of their mobilization Indeed the one consistent feature across the uprisings whether peaceful or violent was the key role played by young people What has remained unclear is why youth became the vanguards of the Arab Spring protests and why they have not played a more prominent role in the transitions that followed To address these questions the authors in this volume use updated data sets on demography employment education inequality social media and public sentiment to examine the underlying socioeconomic conditions of young people in the Middle East at the time of the uprisings and offer a mosaic of analytical explanations linking those conditions from 2009 2011 to the revolts of 2010 2012 The findings in the volume confirm the inadequacy of traditional narrow explanations rooted in demographic profiles economic grievances or political exclusion in accounting for the complex socioeconomic dynamics facing youth and societies at large in the Middle East in the period leading up to the Arab Spring The contributors emphasize the fundamental institutional rigidities in the region's policy space and evaluate potential approaches to policy reform that can promote youth inclusion and help transform the region's political economies in the post Arab Spring environment of persistent economic volatility social unrest and political instability
