Dussel, 2001 Dussel nos ofrece aquí sus más recientes contribuciones a la filosofía política Como indica E Mendieta en su estudio introductorio la crítica de la liberación tiene como complemento lógico y conceptual una política de liberación que como la crítica debe proceder a través de la enunciación positiva de ciertos principios pero también a través de la crítica a la razón política Este es el tema desarrollado a lo largo del presente ensayo donde se va avanzando en la analítica de una filosofía política crítica y madurando los elementos de la arquitectónica de la racionalidad política Una filosofía política crítica deber efectuar una deconstrucción de la filosofía política moderna europea que ha instaurado un espacio político sin principios que subsuman a los tópicos sin criterios universales para determinar fines sin límites de racionalidad práctica ni de solidaridad y que ha permitido al capitalismo tardío globalizado destruir la ecología del planeta y sumir a la mayoría de la humanidad en una pobreza creciente Frente a ello se trata de recuperar la Política en el sentido noble y serio del término de construir los marcos de un espacio político sostenible en el largo plazo para afrontar las amenazas globales que se ciernen sobre la humanidad Es necesario ir abriendo y elaborando el estatuto teórico de una filosofía política crítica
