Agnes Green, 2018-01-28. Animals from A to Z are very much like you. They play, they eat, they sleep, they dream. They even pee and poo. This is a book that answers important potty time questions. From alligators to zebras via octopuses and bears, animals and little children alike must answer the call of Mother Nature when she reminds us that it's time to go to pee and poo. We all know how good little boys and girls should go potty, but what about animals? If you or your child has ever wondered how animals might visit their own potties, you'll find the answers in this very book. Agnes Green's *The Perfect Potty Zoo* is a hilarious and endearing book that little boys and girls potty training will love, all while giving their parents a book to support them as they train for this important milestone in their young lives. Follow the antics of twenty-seven very different animals from air, land, and sea as they all go potty in this beautifully imaginative rhyming ABC book, accompanied with vivid full-color illustrations from artist Zhanna Mendel. Written for children between the age of 2-5, this engagingly humorous book is perfect not just for injecting a little toilet humor into the sometimes fraught process of potty training, but also for helping young children to learn their alphabet while increasing their knowledge of the natural world at the same time. The simple rhymes used for each animal are easy to read and will make this book a memorable journey for parent and child alike, giving plenty of opportunities for funny voices and even open an educational conversation about just why we all need to pee and poo and use our potties.
