Traumatic Bond Between The Psychotherapist And Managed Care:

Ethics in Psychology and the Mental Health Professions Gerald P. Koocher, Patricia Keith-Spiegel, 2016 The completely updated fourth edition of *Ethics in Psychology and the Mental Health Professions* considers many of the ethical questions and dilemmas that mental health professionals encounter in their everyday practice research and teaching A *Cross Section of Psychological Research* Andrea Milinki, 2016-09-01 First Published in 2006 This book is designed for students who are learning how to evaluate published psychological research The 41 research articles in this collection provide the stimulus material for such a course **American Journal of Psychotherapy**, 2000 *Shrink* David Wolgroch, 2011-03-27 1969 a Jewish honor student in the Bronx is a school newspaper editor the son of Holocaust survivors and the newest member of a Puerto Rican extortion gang A strong inciting sequence puts a sixteen year old boy in a dilemma of possible violence After angering the gang's leader Dave at a neighborhood pizzeria he reduces the bruise planting consequences by sharp thinking and more importantly by appearing to assimilate It's a short leap from a call out challenge to an affinity for Carlos Santana records but the inward identity isn't altered After the immediate crisis is managed the cleanly demarcated goal is to quit the gang without repercussions This is best done by brainwashing its tough but insecure leader As a memoirist Wolgroch is interested in phenomena of deception and manipulation Situational ethics on the individual level get a look The distinction between caring for someone and exploiting them is precariously fragile Having found in himself an ability to influence the actions and ideas of others Wolgroch sets wheels to turning which will eventually lead to his vocation as a psychologist The introduction demonstrates social discomfort comes with being introduced as a shrink at gatherings There are unwanted mind reading tests cheesy jibes a whole truckload of assumptions There is not a fitting opportunity to mention the good old days of terrorizing shop owners out of protection money This memoir of about novella length uses well considered pacing decisions to help hold dramatic interest The setting an urban neighborhood in ethnic transition and the reversed dynamic of an isolated white person operating within a minority group are partly leveraged though readers may wish to have learned more about them from the memoirist's inside vantage *Shrink* is fleshed out with brief passages which the reader may initially identify as digressions to irrelevant though interesting historical topics but then find they tie back to the narrative illustrating a principle in an original way For example the Vietnam War's birthdate based draft shows the effects of arbitrary reallocation of life chances on the psyches of military age males Teen readers are a natural target for this story of formation but the writing offers grist for adult minds also The world is brimming with armchair psychoanalysts Indeed we are all amateur scientists when faced with the challenge of understanding the curious behavior of others

Travels with the Self Philip Cushman, 2018-10-09 Travels with the Self uses a hermeneutic perspective to critique psychology and demonstrate why the concept of the self and the modality of cultural history are so vitally important to the profession of psychology Each chapter focuses on a theory concept sociopolitical or professional issue philosophical problem or professional activity that has rarely been critiqued from a historical sociopolitical vantage point Philip Cushman explores psychology's involvement in consumerism racism shallow understandings of being human military torture political resistance and digital living In each case theories and practices are treated as historical artifacts rather than expressions of a putatively progressive modern era science that is uncovering the one universal truth about human being In this way psychological theories and practices especially pertaining to the concept of the self are shown to be reflections of the larger moral understandings and political arrangements of their time and place with implications for how we understand the self in theory and clinical practice Drawing on the philosophies of critical theory and hermeneutics Cushman insists on understanding the self one of the most studied and cherished of psychological concepts and its ills practitioners and healing technologies as historical cultural artifacts surprising almost sacrilegious concepts To this end each chapter begins with a historical introduction that locates it in the historical time and moral political space of the nation's the profession's and the author's personal context Travels with the Self brings together highly unusual and controversial writings on contemporary psychology that will appeal to psychoanalysts and psychotherapists psychologists of all stripes as well as scholars of philosophy history and cultural studies
