This open access book discusses the most modern approach to auditing complex digital systems and technologies. It combines proven auditing approaches, advanced programming techniques, and complex application areas and covers the latest findings on theory and practice in this rapidly developing field. Especially for those who want to learn more about novel approaches to testing complex information systems and related technologies such as blockchain and self-learning systems, the book will be a valuable resource. It is aimed at students and practitioners who are interested in contemporary technology and managerial implications.

Quality Control and Evaluation of Herbal Drugs Pulok K. Mukherjee, 2019-05-30. Quality Control and Evaluation of Herbal Drugs brings together current thinking and practices for evaluation of natural products and traditional medicines. The use of herbal medicine in therapeutics is on the rise in both developed and developing countries, and this book facilitates the necessary development of quality standards for these medicines. This book elucidates various challenges and opportunities for quality evaluation of herbal drugs with several integrated approaches including metabolomics, chemoprofiling, marker analysis, stability testing, good practices for manufacturing, clinical aspects, ethnopharmacology, and ethnomedicine-inspired drug development. Written by Prof. Pulok K. Mukherjee, a leader in this field, the book highlights various methods, techniques, and approaches for evaluating the purity, quality, safety, and efficacy of herbal drugs. Particular attention is paid to methods that assess these drugs' activity, the compounds responsible, and their underlying mechanisms of action. The book describes the quality control parameters followed in India and other countries including Japan, China, Bangladesh, and other Asian countries, as well as the regulatory profiles of the European Union and North America. This book will be useful in bio-prospecting of natural products and traditional medicine-inspired drug discovery and development. Provides new information on the research and development of natural remedies, essential reading on the study and use of natural resources for preventative or healing purposes. Brings together current thinking and practices in quality control and standardization of herbal drugs, highlighting several integrated approaches for metabolomics, chemo-profiling, and marker analysis. Aids in developing knowledge of various techniques including macroscopy, microscopy, HPTLC, HPLC, LC, MS, GC, MS, etc., with the development of integrated methods for evaluation of botanicals used in traditional medicine. Assessment of herbal drugs through bio-analytical techniques, bioassay, guided isolation, enzyme inhibition, pharmacological, microbiological, antiviral assays, and safety-related quality issues. References global organizations such as the WHO, USFDA, CDSCO, AYUSH, TCM, and others to serve as a comprehensive document for enforcement agencies, NGOs, and regulatory authorities.
