Victoria's Year Richard L. Stein,1988-03-31 Although 150 years have passed since Princess Victoria became Queen the first twelve months of her reign remain relatively unexplored In the first literary history to focus specifically on the year 1837 1838 Richard L Stein examines a wide variety of cultural products in visual art and architecture statistics and maps scientific writing and popular journalism and literature itself to reconstruct the thought and experience of England in Victoria s Year Surveying such figures as Carlyle Cruikshank Darwin Dickens Martineau Ruskin Tennyson and Turner this wide ranging volume examines the connections and discontinuities within the values beliefs and modes of representation of this brief cultural moment describing how various arts struggled to produce new legible and stable signs to reflect unprecedented modes of experience in a rapidly changing culture Stein shows how this quest for legibility and certainty was often

undermined from inside and out and the ways in which the order of things in Foucault's sense of the phrase was constantly being reasserted or broken down. Revealing how this particular historical moment was understood by those who lived it and how an array of cultural products served to mediate the most radically new and unfamiliar aspects of the age. Victoria's Year offers new insights into the process that created the myth of Victorianism.
