What would you do with the extra money Start your journey now towards making money online **Sell It Online 2** Nicholas L. Vulich, Nick Vulich, 2013-07-17 Do you want to Make money online but without all the hassle of selling on eBay or Amazon My previous book Sell It Online covered several ways to make money online Selling on eBay Amazon Fiverr and Etsy This book offers four other approaches where you re not so much selling as sharing the knowledge you have I have personally used each of these methods They have worked well for me and other people that I know They can work for you as well if you follow the directions and give them a chance There are as many ways to make money online as there are stars in the sky To make the cut for this book each of the methods given had to meet the following criteria 1 You need to be able to get started for under 100 My thought is most people who want to start an online business don t want to put a lot of money into it If you make the barrier too high people are going to be afraid to take the leap One hundred bucks seems like a hurdle most people will be able to make 2 It s got to be so easy to get started your grandmother could do it Face it I can give you step by step instructions to build a nuclear device but you re not going to do it if the instructions are overly complicated 3 It has to put money in your pocket within 90 days No one wants to wait forever to see their business payoff Every one of the businesses I m going to share with you has the potential to put some jingle in your pocket within 90 days Several of them can bring you cash in the first week or two Kindle Book Marketing I liken Kindle to the new internet gold rush All of the gurus out there are sharing stories about five or six lucky authors who have managed to make hundreds of thousands of dollars from their Kindle books That much is true A few people have made some really big bucks promoting their Kindle books Another truth is most people who publish a Kindle book end up watching it wither and die in no time at all The lucky ones sell one hundred copies a year the not so lucky ones sell three or four copies But then they run out of mothers grandmothers and best friends to keep their sales going With that said there is a middle group of Kindle authors selling five hundred to two thousand copies of their books every month Many of them are pulling down a cool 1000 to 5000 per month in royalties In this section we will explore the latter group of Kindle authors and lay out their secrets for success Local employment website or local portal This is a specialized market not many people are aware of It is easy to break into In as little as six months you can be pulling down 1000 or more in monthly income Don t know anything about HTML or website publishing not a problem I will show you everything you need to succeed in this business Online training courses and coaching Do people always ask you for advice on how to do something Are you the go to person at your company or in a group Do you enjoy helping people learn new tasks If so creating online courses and training materials might be the perfect opportunity for you Blogging Blogging is a great way to share your passions with the world while being able to make a little money too I m not going to lie to you Most people don t make a whole lot of money blogging Often times they make enough to cover their expenses and a few bucks to take the family out to dinner now and then Other bloggers have broken loose and made six and seven figure incomes blogging It can happen I m just saying don t bet all your cards on it Running a successful blog takes a lot of work a lot of writing and
