and handling the

Models PP and PPK

It is important to realize that the Models PP and PPK can be dismantled within only a few seconds without the aid of any tool and without fear of inadvertently causing any component parts to become detached and fall out. Care must be taken so as to ensure that the pistols are loaded, unloaded, or dismantled only after the thumb safety has been applied! Moreover, the muzzle should always point to the ground when the pistols are not actually being used.

JIL 10

Loading:

First, apply the thumb safety. This measure must be adopted in any instance of handling either model PP or PPK. Press the magazine catch button with the right thumb. The magazine is pushed out of the pistol by spring pressure. See JIL 10 above. "The pistol shown in JIL 10-20 is the Model PPK. The directions given in the appropriate texts, however, apply naturally also the pistol Model PP."
