Family Law International Society on Family Law. World Conference,2003-04-10 Papers from the 10th International Society of Family Law Conference covering the resolution of disputes and current pressures on family law What is The Family of Law? Alan Brown,2019-02-07 This book argues that the legal understanding of family in the UK continues to be underpinned by the idealised image of the nuclear family premised upon the traditional gendered roles of father as breadwinner and mother as homemaker This examination of the law's model of the family has been prompted by the substantial reforms that have taken place in family law in recent decades and the significant evolution in social attitudes and familial practices that has occurred in parallel Throughout the book the influence of the nuclear family is noted in several different contexts various specific legal definitions of family the legal regulation of adult conjugal relationships the attribution of legal parenthood and the construction of the role of the parent within the law Ultimately this book argues that while these reforms have resulted in additional categories of relationship coming to be situated within the nuclear family model there has not as yet been any fundamental alteration of the underpinning concept of the nuclear family itself This book concludes by considering the possibilities offered beyond the nuclear family exploring the reconceptualising of the legal understanding of family around alternative and potentially radical models of family **The UN Convention on the Rights of the Child** John Tobin,2019-03-28 The United Nations Convention on the Rights of the Child is the most extensive and widely ratified international human rights treaty This Commentary offers a comprehensive analysis of each of the substantive provisions in the Convention and its Optional Protocols on Children and Armed Conflict and the Sale of Children Child Prostitution and Pornography It provides a detailed insight into the drafting history of these instruments the scope and nature of the rights accorded to children and the obligations imposed on states to secure the implementation of these rights In doing so it draws on the work of the Committee on the Rights of the Child international regional and domestic courts academic and interdisciplinary scholarly analyses It is of relevance to anyone working on matters affecting children including government officials policy makers judicial officers lawyers educators social workers health professionals academics aid and humanitarian workers and members of civil society **The Hastings Law Journal** ,2002 Regulating Autonomy Shelley Day Sclater,2009-04 These essays explore the nature and limits of individual autonomy in law policy and the work of regulatory agencies Authors ask searching questions about the nature and scope of the regulation of private lives from intimacies personal relationships and domestic lives to reproduction They question the extent to which the law does or

should protect individual autonomy Recent rapid advances in the development of new technologies particularly those concerned with human genetics and assisted reproduction have generated new questions practical social legal and ethical about how far the state should intervene in individual decision making Is there an inevitable tension between individual liberty and the common good How might a workable balance between the public and the private be struck How indeed should we think about autonomy The essays explore the arguments used to create and maintain the boundaries of autonomy for example the protection of the vulnerable public goods of various kinds and the maintenance of tradition and respect for cultural practices Contributors address how those boundaries should be drawn and interventions justified How are contemporary ethical debates about autonomy constructed and what principles do they embody What happens when those principles become manifest in law
