

SOCIAL MOVEMENTS

A social movement is any movement that uses the collective effort of a group of people to achieve a common political/social goal.

OVERVIEW

Scott (2014), in *A Dictionary of Sociology*, defines a social movement as "An organized effort by a significant number of people to change (or resist change in) some major aspect or aspects of society." The term was originally applied to political forces opposing the status quo, but now the term is mostly used for organizations outside the mainstream political system.

EXAMPLE

The civil rights movement (1945-1968) aimed to abolish racial discrimination in the United States. After the American Civil War, the Reconstruction Amendments granted constitutional rights to all African Americans. However, they still faced discrimination (due to Jim Crow laws) and violence. Over the next century, African Americans fought for legal and civil rights.

What Is A Social Movement:

What is a Social Movement? Hank Johnston, 2014-04-10 Social movements play a central role in the scope and direction of social change. They were instrumental in the creation of the modern state and today are major forces in politics and culture. Environmentalism, gay rights, alterglobalization and Islamic fundamentalism are all movements with far-reaching impacts on contemporary society. What is a Social Movement traces how the study of movements such as these of their structures, their ideas, and their repertoires of protest have grown in recent years to become a major focus in the social sciences. It deftly navigates the organizational, ideational, and cultural complexity of political and social movements and offers a succinct but comprehensive overview of the hows, whys, and wheretofores of studying them. The book analyzes how politics and culture frequently intersect as people participate in movements that call for change and pursue group interests. By focusing on movement organizations and networks on what they do and how they articulate their ideas of justice and collective interests. What is a Social Movement lays the essential groundwork for understanding this significant and exciting field of research where it came from and where it is headed.

Rethinking Social Movements Jeff Goodwin, James M. Jasper, 2003-10-07 This landmark volume brings together some of the titans of social movement theory in a grand reassessment of its status. For some time the field has been divided between a dominant structural approach and a cultural or constructivist tradition. The gaps and misunderstandings between the two sides as well as the efforts to bridge them closely parallel those in the discipline of sociology at large. This book aims to further the dialogue between these two distinct approaches to social movements and to show the broader implications for sociology as a whole as it struggles with issues including culture, emotion, and agency.

The Social Movement Society David S. Meyer, Sidney Tarrow, 1997-12-29 Is there more social protest now than there was prior to the movement politics of the 1960s, and if so, does it result in a distinctly less civil society throughout the world? If everybody protests, what does protest mean in advanced industrial societies? This volume brings together scholars from Europe and the U.S. and from both political science and sociology to consider the ways in which the social movement has changed as a political form and the ways in which it continues to change the societies in which it is prevalent.

communication technologies such as social media cell phones and the Internet Why do some movements survive while others dissipate Do local and global networks differ in nature The authors essays explore such questions with reference to changes in three domains of contention the demand of protest changes in grievances and identities the supply of protest changes in organizations and networks and how these changes affect the dynamics of mobilization In doing so they theorize and make empirically insightful how globalization individualization and virtualization create new grievances new venues for action new action forms and new structures of contention The resulting work brought together through engaging discussions and debates between the contributors is interdisciplinary and unusually broad in scope constituting the most comprehensive overview of the dynamics of social movements available today Contributors Marije Boekkooi VU U Amsterdam Pang Ching Bobby Chen U of California Merced Donatella della Porta European U Institute Mario Diani U of Trento Italy Jan Willem Duyvendak U of Amsterdam Myra Marx Ferree U of Wisconsin Madison Beth Garrity Gardner Ashley Gromis Swen Hutter U of Munich Ruud Koopmans WZB Berlin Hanspeter Kriesi U of Zurich Nonna Mayer National Centre for European Studies Doug McAdam Stanford U John D McCarthy Pennsylvania State U Debra Minkoff Barnard College Columbia U Alice Motes Pamela E Oliver U of Wisconsin Madison Francesca Polletta U of California Irvine Jacomijn Prins VU U Amsterdam Patrick Rafail Tulane U Christopher Rootes U of Kent Canterbury Dieter Rucht Free U of Berlin David A Snow U of California Irvine Sarah A Soule Stanford U Suzanne Staggenborg U of Pittsburgh Sidney Tarrow Cornell U Verta Taylor U of California Santa Barbara Marjoka van Doorn Martijn van Zomeren U of Groningen Stefaan Walgrave U of Antwerp Saskia Welschen
