Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e g Christian Jewish Muslim etc agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease

Comparative Theology in the Millennial Classroom Mara Brecht, Reid B Locklin, 2015-12-07 This volume explores the twenty first century classroom as a uniquely intergenerational space of religious disaffiliation and questions about how our work in the classroom can be and is being re imagined for the new generation The culturally hybrid identity of Millennials

shapes their engagement with religious others on campus and in the classroom pushing educators of comparative theology to develop new pedagogical strategies that leverage ways of seeing and interacting with their teachers and classmates

Reflecting on religious traditions such as Islam Judaism African Traditional Religions Hinduism Christianity and agnosticism atheism this volume theorizes the theological outcomes of current pedagogies and the shifting contours of comparative theological discourse Liberalism Versus Postliberalism John Allan Knight,2013 The book provides an original analysis of the central philosophical differences between liberal and postliberal theology Knight argues that important developments in philosophy of language reveal serious problems with the central methodological commitments of liberalism and postliberalism and suggest ways in which the divide can be bridged *Theology in the Present Age* Christopher Ben Simpson,Steven D. Cone,2013-08-23 This volume of essays centers on the theme of doing Christian theology in the present postmodern context a consistent theme of the teaching of John D Castelein The work will celebrate and honor John s years of service by representing reflections of his teaching in the thought of his students and colleagues The essays range over such topics as theological reflections on the postmodern philosophical themes the relations between Christian theology and culture the contributions of philosophical hermeneutics for Christian theology and the challenges of engaging in ministry in a postmodern context The seventeen contributors to the volume are former students and both present and former colleagues involved in various ministries be they in a college setting or in a local church **Christian Faith** B. A. Gerrish,2015-08-24 At the beginning of *Christian Faith* B A Gerrish reminds us that dogmatics involves critical transmission of the Christian heritage The dogmatic theologian must interpret and assess the traditional beliefs of the church while also considering the new and changing conditions in which that tradition is being embodied With that Gerrish goes on to outline the various presuppositions and affirmations of the Christian faith before ultimately offering a powerful and compelling restatement of Christian faith for the twenty first century As part of his framework Gerrish includes a critical comparison of Calvin s Institutes of the Christian Religion and Schleiermacher s *Christian Faith* while still paying close attention to the great cloud of theological witnesses from across the spectrum of Christian traditions Gerrish s book provides a robust and penetrating revisioning of Christian theology one that is thoroughly grounded in the classical traditions of the church Isaak A. Dorner Jonathan Norgate,2011-10-27 Norgate assesses the way in which the Christian doctrine of the Trinity is the foundation for all other Christian doctrines especially the Christian understanding of salvation He investigates in detail the approach of the German Lutheran theologian Isaac A Dorner 1809 1884 to this question Analysis of his arguments concerning the priority of the doctrine of God for Christian belief and dogmatics is given It examines the form of his doctrine of God s triunity and gives an extensive study of how Dorner s particular account of God s triune identity informs the Christian conception of God s relation to the world first as Creator and second as Saviour In this process it seeks to refocus attention on Dorner as a major figure in the development of modern theology The relationship between Dorner s doctrines of the triune God and salvation is

assessed Dorner's positive reconstruction of the Christian idea of God as Trinity provides helpful resources in delineating a non-competitive account of God's relation to the world. This means that God is not confused with nor distant from the world. The eternal vitality of God's immanent personality is the basis of His vital economic activity which culminates in the incarnation of the Son. We follow the main tributaries of Dorner's arguments in *System of Christian Faith* beginning with an analysis of his doctrine of God via his development of the doctrines of creation, humanity, and the incarnation of the God-man. An assessment is given of those doctrines which pertain to the way in which God brings salvation through Jesus Christ: sin, Jesus, and atonement. Norgate concludes by comparing Dorner's achievements with those found in more recent theologies of atonement.

From Advent to Ascension Charles Ensminger, 2022-08-10

From Advent to Ascension: A Journey with the Christ follows the themes and direction of the Christian year that focus specifically on the earthly life of Christ. Beginning with the expectations of Advent, you're invited to walk with Jesus from his birth to his Ascension. This journey encourages you to consider what it means to take the name of Christian. As such, this book invites you to carefully consider the elements of Jesus's life and teachings. Consider questions such as: What does it truly mean to follow Jesus? What does Christianity claim arrived in the person of Jesus? What is God's dream for the future of humanity? What is it we should expect from the Christ? Christianity is a faith with a story. That narrative is told and retold year after year until it can be lost in the mix of seasons and programs. *From Advent to Ascension* can be a tool by which your church can encounter anew the story of the Christian faith. Ignite your faith and join the author on a devotional study of Jesus beginning with the Advent season and continuing through his ascension. It is a journey that will move you closer to the Lord.
