Morse, 2020-02-03

Originally published in 1989, *New World Soundings* cultural historian Richard Morse takes a series of sharply focused looks at the Americas. He inquires into the ways in which speech and poetry evoke the common historical experience of North and South America and examines the transatlantic sea changes of European languages. He uses political ideology to contrast the traditions of Anglo and Latin America while surveying contemporary pressures for ideological change. In the book's final sections, he addresses the North-South transaction from yet three more angles, ruminating on the problems involved in conveying the Latin American experience to U.S. students, considering the impediments to U.S. Puerto Rican understanding, and recounting the mythic adventures of McLuhan's first Brazilianist as he travels through the exotic land he has chosen for definitive research. *What's Left?* By: The McSherry Writers, 2023-06-06

Visit New York's Hamptons where miles of spectacular white sand beaches and sea grass covered dunes dazzle visitors where picturesque windmills provide evidence of an agrarian past and many Native American and Dutch place names still survive offering clues to the ethnic makeup of the area's population. Once home to occupying British troops, bootleggers, and whaling captains, longtime home of fishermen, artists, and duck farmers, the Hamptons are also known as the playground of the wealthy with fabulous shopping, dining, and amenities, but don't be fooled, there's something for everyone in this lovely locale that's so close to New York City but a world away.
