BlackBerry Theme Builder

BlackBerry Theme Builder overview

You can create themes to personalize the screens on the BlackBerry® device. For example, you can change the background image, change the color of the font, change the applications that appear on the screens, set an application to open a webpage, add a ring tone, and create screen transitions. You can use sample images that are included in the BlackBerry Theme Builder or you can create your own images and use them in the BlackBerry Theme Builder.

You can create a theme for your device or you can make themes available online (for example, on the BlackBerry App World™ storefront) so that BlackBerry device users can download them. Users can use the themes that are provided on the device or they can download themes from online retailers.

You can install a BlackBerry Smartphone Simulator to test themes on your desktop before you distribute them to devices, or you can install the themes directly on a device.

Customizable screen elements

Screen element	Description	
Home screen	The Home screen appears when you turn on or unlock the BlackBerry® device. In your theme, you can make the following changes to the Home screen: • Change the background image • Change the font type and font color In the BlackBerry Theme Builder, you can customize the Home screen for your theme by clicking the Home Screen button in the Inspector.  For themes with a BlackBerry® 6 theme layout, you have the additional option of making changes to the Today Home screen by clicking the Today Home screen button in the Inspector. 	
Application list	The Application list displays the applications, games, and folders that are on the device. For devices running BlackBerry® 6 with a BlackBerry 6 theme layout, you can tap All on the tray to display the list of applications. For devices running BlackBerry Device Software 5.0 and earlier, the Application list appears when you press the Menu key  on the Home screen of the BlackBerry device. In your theme, you can make the following changes to the Application list: • Change the font type and font color for the text on the Application list • Change the images for the different icons for the applications • Add links to web pages In the BlackBerry Theme Builder, you can customize the Application list screen for your theme by clicking the Application List button in the Inspector.
