Buddhist and Taoist Systems Thinking Josep M. Coll, 2021-07-13 Buddhist and Taoist Systems Thinking explores a radical new conception of business and management It is grounded on the reconnection of humans with nature as the new competitive advantage for living organizations and entrepreneurs that aspire to regenerate the economy and drive a positive impact on the planet in the context of the Anthropocene Organizations today struggle in finding a balance between maximizing profits and generating value for their stakeholders the environment and the society at large This happens in a paradigm shift characterized by unprecedented levels of exponential change and the emergence of disruptive technologies Adaptability thus is becoming the new business imperative How can then entrepreneurs and organizations constantly adapt and at the same time design the sustainable futures they d like This book uniquely explores the benefits of applying Buddhist and Taoist Systems Thinking to sustainable management Grounded in Taoist and Zen Buddhist philosophies it offers a modern scientific perspective fundamentally based on the concepts of bio logical adaptability and lifefulness amidst complexity and constant change The book introduces the new concept of the Gaia organization as a living organism that consciously helps perpetuate the conditions for life on the planet It is subject to the natural laws of transformation and the principles of oneness emptiness impermanence balance self regulation and harmonization Readers will find applied Eastern systems theories such as the Yin Yang and the Five Elements operationalized through practical methodologies and tools such as T Qualia and the Zen Business model They are aimed at guiding Gaia organizations and entrepreneurs in leading sustainable transformations and qualifying economic growth The book offers a vital toolkit for purpose driven practitioners

management researchers students social entrepreneurs evaluators and change makers to reinvent create and mindfully manage sustainable and agile organizations that drive systemic transformation Disruptive Innovation in Chinese and Indian Businesses Peter Ping Li, 2013-03-12 With the rapid development of China and India as new economic powers in global competition an obvious question is whether these emerging economies are great opportunities or threats Whilst answers are bound to differ depending on one's perspective it is increasingly clear that more local firms especially local entrepreneurs from these emerging economies will play a more critical role in global competition by becoming challengers to global incumbents Indeed the fact that the majority of their populations are at the bottom of the pyramid and thus cannot afford products designed for the developed markets has made these emerging economies fertile ground for developing and applying disruptive innovations A novel mix of key attributes distinctive from those of established technologies or business models disruptive innovations are typically inferior yet affordable and good enough products or services which originate in lower end market segments but later move up to compete with those provided by incumbent firms This book sheds new light on disruptive innovations both from and for the bottom of the pyramid in China and India from the point of view of local entrepreneurs and international firms seeking to operate their businesses there It covers both the theoretical and practical implications of disruptive innovation using conceptual frameworks alongside detailed case studies whilst also providing a comparison of conditions and strategic options in India and China Further unlike existing studies this book focuses on the neglected perspective of local challengers as the primary players and in doing so reveals the extent to which the future landscape of global competition may be shaped by disruptive innovation as well as its capacity to make the world flatter and more sustainable This unique book will be valuable to both scholars and practitioners interested in disruptive innovation and those working in the fields of Asian studies international business economics and globalization **PASCAL.**, 1994 **Rural Recreation and Tourism Abstracts**, 1981 **Resources in Education**, 1992 Leisure, Recreation, and Tourism Abstracts, 1981 *Comprehensive Dissertation Index: Business & economics, L-Z*, 1984 Government Reports Announcements & Index, 1989-03 Forthcoming Books Rose Army, 2001 *Paperbound Books in Print*, 1982
