A HUMAN RELATIONS APPROACH TO MULTICULTURALISM IN K-12 SCHOOLS George Henderson, 2013-06-01 Explicit in this book is the author s belief that it is not enough to say that Americans live in culturally diverse and stratified communities in which educational opportunities are not distributed fairly nor is it enough to reiterate that most educational opportunities are not based solely on students academic abilities Rather elementary and secondary school personnel must be involved in abating these problems The book is not meant to be read passively by teachers and teacher candidates it is intended to be a dialogue that encourages discussion and when possible action Explicit throughout each chapter is the belief that how teachers teach a course matters as much as what is taught Each chapter is written to achieve four major objectives 1 to discuss key societal factors that positively or negatively affect the quality of instruction students receive in elementary and secondary schools 2 to discuss selected racial and ethnic groups beliefs attitudes and behaviors that characterize teaching personnel students and parents 3 to present seminal research studies and their implications for educating elementary and secondary students and 4 to provide
