The Real Ambassadors Keith Hatschek,2022-02-04 Winner of the 2023 ASCAP Foundation Deems Taylor Virgil Thomson Book Award Recipient of a 2023 Certificate of Merit for Best Historical Research in Recorded Jazz from the Association for Recorded Sound Collections Keith Hatschek tells the story of three determined artists Louis Armstrong Dave Brubeck and Iola Brubeck and the stand they took against segregation by writing and performing a jazz musical titled *The Real Ambassadors* First conceived by the Brubecks in 1956 the musical s journey to the stage for its 1962 premiere tracks extraordinary twists and turns across the backdrop of the civil rights movement A variety of colorful characters from Broadway impresarios to gang connected managers surface in the compelling storyline During the Cold War the US State Department enlisted some of

America's greatest musicians to serve as jazz ambassadors touring the world to trumpet a so-called free society. Honored as celebrities abroad, the jazz ambassadors who were overwhelmingly African Americans returned home to racial discrimination and deferred dreams. The Brubecks used this double standard as the central message for the musical, deploying humor and pathos to share perspectives on American values. On September 23, 1962, The Real Ambassadors's stunning debut moved a packed arena at the Monterey Jazz Festival to laughter, joy, and tears. Although critics unanimously hailed the performance, it sadly became a footnote in cast members' bios. The enormous cost of reassembling the star-studded cast made the creation impossible to stage and tour. However, *The Real Ambassadors* Dave and Iola Brubeck and Louis Armstrong Challenge Segregation caps this jazz story by detailing how the show was triumphantly revived in 2013 by the Detroit Jazz Festival and in 2014 by Jazz at Lincoln Center. This reaffirmed the musical's place as an integral part of America's jazz history and served as an important reminder of how artists' voices are a powerful force for social change.

Spacecraft

Michael H. Gorn, 2018-09-04 *Spacecraft* takes a long look at humankind's attempts and advances in leaving Earth through incredible illustrations and authoritatively written profiles on Sputnik, the International Space Station, and beyond. In 1957, the world looked on with both uncertainty and amazement as the Soviet Union launched Sputnik 1, the first man-made orbiter. Sputnik 1 would spend three months circling Earth every 98 minutes and covering 71 million miles in the process. The world's space programs have traveled far, literally and figuratively, since then, and the spacecraft they have developed and deployed represent almost unthinkable advances for such a relatively short period. This ambitiously illustrated aerospace history

profiles and depicts spacecraft from Sputnik 1 through the International Space Station and everything in between including concepts that have yet to actually venture outside the Earth's atmosphere. Illustrator and aerospace professional Giuseppe De Chiara teams up with aerospace historian Michael Gorn to present a huge profusely illustrated and authoritatively written collection of profiles depicting and describing the design, development and deployment of these manned and unmanned spacecraft. Satellites, capsules, spaceplanes, rockets and space stations are illustrated in multiple views, sometimes cross-section and in many cases shown in archival period photography to provide further historical context. Dividing the book by era, De Chiara and Gorn feature spacecraft not only from the United States and Soviet Union/Russia but also from the European Space Agency and China. The marvels examined in this volume include the rockets Energia, Falcon 9 and VEGA, the Hubble Space Telescope, the Cassini space probe and the Mars rovers Opportunity and Curiosity. Authoritatively written and profusely illustrated with more than 200 stunning artworks, *Spacecraft 100: Iconic Rockets, Shuttles and Satellites That Put Us in Space* is sure to become a definitive guide to the history of manned space exploration.

The Last Mixtape Seth Long, 2025-07-16 A reflection on the evolution of physical media into metaphor through the history of music curation. Obsolescence makes the heart grow fonder, at least in the case of the mixtape. Not all technologies are so lucky. Some say wax cylinders fade almost completely from cultural memory. A lucky few pass into metaphor; we still hang up our smartphones, cut film and patch computer code. As digital streaming completes the obsolescence of physical media, what will become of the humble cassette? In *The Last Mixtape*, Seth Long offers a microhistory of music curation anchored by the cassette from which he explores the meanings of obsolescence, ownership, nostalgia and the speed of cultural change. A moving meditation on our relationship with music, memory and curation in the digital century, Long ultimately calls for a return to the media ecology represented by the mixtape: a world in which media is cheap and abundant but tactile and meaningfully engaged. *High Fidelity News and Record Review*, 1990
