The US Army Of World War I Men At Arms:

The US Army 1890-1920 Philip Katcher, 2012-05-20 Between 1890 and 1920 the US Army underwent profound changes in organization function composition and appearance The Army was transformed from a small blue clad force whose primary weapon was the single shot rifle into a mighty host of men dressed in dirt coloured combat uniforms using automatic weapons tanks and aircraft to fight enemies on fields across the world This book details the Army s developments during its involvement in the Spanish American War the Boxer Rebellion and World War I Particular attention is given to the evolution of the Army s uniforms which are illustrated vividly throughout the book *The US Army 1941-45* Philip

Katcher, 2012-05-20 At the time of the Second World War the United States Army took an unusual approach for the period towards the design of its uniforms Rather than attempt to find an all purpose outfit such as the British battledress it attempted to design special purpose dress for every possible duty from combat in cold climates to dress parades in hot ones Alongside illustrations photographs and colour plates Philip Katcher provides an extensive examination of the many different types of uniform and equipment which saw service during the conflict *Armies in the Balkans 1914-18* Nigel

Thomas, Dusan Babac, 2012-05-20 A comprehensive overview of the troops involved in the First World War campaigns in Southeastern Europe It was events in the Balkans which sparked off the Great War with the assassination of the Austrian heir Prince Franz Ferdinand in Sarajevo and the consequent invasion of Serbia by Austro Hungarian armies on 2 August 1914 Nevertheless the subsequent four year war in that theatre is always overshadowed by the simultaneous campaigns on the Western Front For the first time this book offers a concise account of these complex campaigns the organisation orders of battle and the uniforms and insignia of the armies involved Austro Hungarian German Ottoman Serbian Montenegrin Albanian British French Italian Russian Bulgarian Greek and Rumanian **The US Cavalry** John Selby, 2012-05-20 The US

cavalry has distinguished itself in battle since the American Revolution of the 1770s Since then the cavalry has seen action in the American Civil War and in frequent battles with Native American tribes on the western frontier and later in World War II and the Korean War This book details the history of the cavalry from its formation to the late 1960s while profiling some of its most memorable leaders The text is backed by numerous illustrations including contemporary photographs sketches maps and eight colour plates **Samurai Armies 1550-1615** Stephen Turnbull, 2012-01-20 In 1543 three Portuguese merchants

entered a turbulent Japan bringing with them the first firearms the Japanese had ever seen simple matchlock muskets called arquebuses They proved a decisive addition to the Japanese armoury as for centuries the samurai had fought only with bow sword and spear In 1575 one of the greatest original thinkers in the history of samurai Oda Nobunaga arranged his arquebusiers in ranks three deep behind a palisade and proceeded quite literally to blow his opponent s cavalry to pieces marking the beginning of a new era in Japanese military history Stephen Turnbull a world renowned samurai expert explores the evolution of these forces and how they fought alongside specially commissioned artwork **North American Indian**

Tribes of the Great Lakes Michael G Johnson, 2012-02-20 A detailed look at the warriors of the Native Americans who lived around the Great Lakes This book details the growth of the European Fur trade in North America and how it drew the Native Americans who lived in the Great Lakes region notably the Huron Dakota Sauk and Fox Miami and Shawnee tribes into the colonial European Wars During the French and Indian War the American Revolution and the War of 1812 these tribes took sides and became important allies of the warring nations However slowly the Indians were pushed westward by the encroachment of more settlers This tension finally culminated in the 1832 Black Hawk s War which ended with the deportation of many tribes to distant reservations

Ukrainian Armies 1914-55 Peter Abbott, Eugene Pinak, 2012-02-20 There can be no region in Europe whose history has been more tortured than Ukraine During the 20th century Austria Poland Russia Germany Hungary Czechoslovakia and Romania vied for power over parts of this vast and fragmented area and its divided peoples rose time and again in vain attempts to win their independence For the first time in the West this book gives a succinct summary of all the different armed forces raised among the Ukrainians and of their uniforms and insignia These are illustrated in colour and in a selection of extremely rare photographs dating from the Great War to the aftermath of World War II when Ukrainian guerrillas continued to defy the Soviet authorities until the mid 1950s

Chinese Warlord Armies 1911-30 Philip Jowett, 2012-02-20 Defeated in the Sino Japanese War 1894 95 and the Boxer Rebellion of 1900 Imperial China collapsed into revolution and a republic was proclaimed in 1912 From the death of the first president in 1916 to the rise of the Nationalist Kuomintang government in 1926 the differing regions of this vast country were ruled by endlessly forming breaking and re forming alliances of regional generals who ruled as warlords These warlords acted essentially as local kings and much like Sengoku period Japan fewer larger power blocks emerged fielding armies hundreds of thousands strong In the mid to late 1920s some of these regional warlords This book reveals each great warlord as well as the organization of their forces which acquired much and very varied weaponry from the west including the latest French air force bombers They were also joined by Japanese White Russian and some Western soldiers of fortune which adds even more colour to a fascinating and oft forgotten period

Medieval Polish Armies 966-1500 David Nicolle, Witold

Sarnecki, 2012-02-20 The fascinating history of a war torn state that emerged with a strong Medieval army that became one of the dominating powers of Eastern Europe Poland became a unified Christian state in AD 966 and by the 12th century a knightly class had emerged a force that was integral to the defence of Poland against increasingly frequent foreign invasions Intent on crushing rival Christian states the Templars Hospitallers and Teutonic Knights all mounted attacks but were beaten back by the Poles as were invading Mongols and Turks This book reveals the organisation equipment and battle histories of the medieval Polish armies as they developed and modernised to emerge as one of the dominant powers of Eastern Europe
