The Body in Asia Bryan S. Turner, Zheng Yangwen, 2009-11-01 The past few decades have seen growing interest in the study of the body However the increasing number of exciting and influential publications has primarily if not exclusively focused on the body in Western cultures The various works produced by Asian scholars remain largely unknown to Western academic debates even though Asia is home to a host of rich body cultures and religions The peoples of Asia have experienced colonization decolonization and now globalization all of which make the body in Asia a rewarding field of research This unique volume brings together a number of scholars who work on East Southeast and South Asia and presents original and cutting edge research on the body in various Asian cultures *The Churches of Rome* Roger Thynne, 1924

Religion, Politics and Gender in Indonesia Sonja van Wichelen, 2010-06-10 The political downfall of the Suharto administration in 1998 marked the end of the New Order in Indonesia a period characterized by 32 years of authoritarian rule It opened the way for democracy but also for the proliferation of political Islam which the New Order had discouraged or banned Many of the issues raised by Muslim groups concerned matters pertaining to gender and the body They triggered heated debates about women's rights female political participation sexuality pornography veiling and polygamy The author argues that public debates on Islam and Gender in contemporary Indonesia only partially concern religion and more often refer to shifting moral conceptions of the masculine and feminine body in its intersection with new class dynamics national identity and global consumerism By approaching the contentious debates from a cultural sociological perspective the book links the theoretical domains of body politics the mediated public sphere and citizenship Placing the issue of gender and Islam in the context of Indonesia the biggest Muslim majority country in the world this book is an important contribution to the existing literature on the topic As such it will be of great interest to scholars of anthropology sociology and gender studies **The Gentleman's Magazine** ,1811 *Transactions of the St. Paul's Ecclesiological Society* ,1905 Fabrics,

religion and sex to how children are born and raised In *Defying The Plan* Kim Jezebel Zinngrebe draws from a series of moving interviews to reveal that despite various forms of intertwined oppressions by both the Israeli state and Palestinian society Palestinian women show defiance by the quotidian choices they make in their own intimate lives under occupation which Zinngrebe argues cannot be perceived as a mere corollary but constitute a pivotal and contested terrain of the struggle between settler and colonized *Defying The Plan* explores such issues as the segregation of sexual education in Palestine the politics of dress menstruation and tattoos and the roles of class feminism and race Importantly she highlights the intersectional experiences of women typically excluded from existing accounts such as Black Palestinian women women with disabilities unmarried and divorced women Bedouin women and LGBTQI women The stories gathered in *Defying The Plan* trace and unpack settler colonial power at the level of the intimate and native women s various practices of defiance
