Harold Bloom

The Victorian World Picture Perceptions And Introspections In An Age Of Change:

The Victorian World Picture David Newsome,1997 David Newsome's monumental history *The Victorian World Picture* takes a good long look at the Victorian age and what distinguishes it so prominently in the history of both England and the world. *The Victorian World Picture* presents a vivid canvas of the Victorians as they saw themselves and as the rest of the world saw them. *The Victorian Novel* Harold Bloom,2004 Victorian England produces some of the greatest novelists in Western history including Charles Dickens, Thomas Hardy and George Eliot. Critical analysis focuses on the development of the Victorian novel through the second half of the 19th century. *The Portrayal of Women in the Victorian Age. Gender in Thomas Hardy's "The Mayor of Casterbridge"* Oliver Baum,2014-09-19 Seminar paper from the year 2007 in the subject English Language and Literature Studies Literature grade 3.0 University of Marburg Institut für Anglistik und Amerikanistik course 10 090 00016 HS The English Novel From the Beginnings to the 21st Century language English abstract This term paper focuses on the topic of gender and the investigation of Hardy's portrayal of women as it emerges from the novel. In order to prove my thesis I will reflect on how far Hardy follows major trends of Victorian fiction in *The Mayor of Casterbridge*. Next I will depict the Victorian ideal of women with regard to fiction and society. Finally I will prove my claim that Hardy's ambivalent view of women which embraces both conventional and modern ideals is valid for *The Mayor of Casterbridge* because it portrays women both as inferior and superior. Accordingly I will show that Hardy's heroines deviate from the prevalent Victorian ideal of women. Therefore I will analyse crucial aspects like Hardy's authorial point of view as well as Henchard's relationship to Susan Lucetta and Elizabeth Jane in the novel. My thesis matters because the appeal of Hardy as a novelist has long been vital increasingly so in recent years. Besides the tension of Hardy's representation of women makes his work one of the richest and most complex sources of feminist commentary in the realist novel. Recent criticism of Hardy focused on Marxist and feminist theories by reassessing Hardy's novels as revolutionary. This issue remains important because women have been oppressed for centuries while Hardy's fiction contributed to the women's struggle for emancipation. *Acculturating Age: Approaches to Cultural Gerontology* Brian J. Worsfold,2011 Acculturating refers to the interchange of patterns of behaviour, perceptions and ideas between groups of individuals who have different cultural backgrounds. This book, which is the result of collaboration between specialists from different disciplines from around the world, allows the comparison of systems of dependency, mediation skills, empathy and social understanding and cultural attitudes towards people who experience the stages of aging. *The Victorians* John Gardiner,2002-01-01 Ever since Lytton Strachey mocked Thomas Arnold, Florence Nightingale and General Gordon in *Eminent Victorians*, the reputation of the Victorians and what they stood for has provoked vigorous debate. **Western Civilization: A Global and Comparative Approach** Kenneth L. Campbell,2015-01-28 Featuring the one author, one voice approach, this text is ideal for instructors who do not wish to neglect the importance of non-Western perspectives on the study of the past. The book is a brief, affordable

presentation providing a coherent examination of the past from ancient times to the present Religion everyday life and transforming moments are the three themes employed to help make the past interesting intelligible and relevant to contemporary society

Gold Rush Manliness Christopher Herbert,2018-11-13 The mid nineteenth century gold rushes bring to mind raucous mining camps and slapped together cities populated by carousing miners gamblers and prostitutes Yet many of the white men who went to the gold fields were products of the Victorian era educated men who valued morality and order Examining the closely linked gold rushes in California and British Columbia historian Christopher Herbert shows that these men worried about the meaning of their manhood in the near anarchic ethnically mixed societies that grew up around the mines As white gold rushers emigrated west they encountered a wide range of people they considered inferior and potentially dangerous to white dominance including Latin American Chinese and Indigenous peoples The way that white miners interacted with these groups reflected their conceptions of race and morality as well as the distinct political principles and strategies of the US and British colonial governments The white miners were accustomed to white male domination and their anxiety to continue it played a central role in the construction of colonial regimes In addition to renovating traditional understandings of the Pacific Slope gold rushes Herbert argues that historians understanding of white manliness has been too fixated on the eastern United States and Britain In the nineteenth century popular attention largely focused on the West It was in the gold fields and the cities they spawned that new ideas of white manliness emerged prefiguring transformations elsewhere

Reader's Guide to British History David Loades,2020-12-17 The Reader sGuide to British History is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of Britain from ancient and Roman Britain to the present day Each entry lists 6 12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication

Anglo-German Scholarly Networks in the Long Nineteenth Century Heather Ellis,Ulrike Kirchberger,2014-01-30 Anglo German Scholarly Networks in the Long Nineteenth Century explores the complex and shifting connections between scientists and scholars in Britain and Germany from the late eighteenth century to the interwar years Based on the concept of the transnational network in both its informal and institutional dimensions it deals with the transfer of knowledge and ideas in a variety of fields and disciplines Furthermore it examines the role which mutual perceptions and stereotypes played in Anglo German collaboration By placing Anglo German scholarly networks in a wider spatial and temporal context the volume offers new frames of reference which challenge the long standing focus on the antagonism and breakdown of relations before and during the First World War Contributors include Rob Boddice John Davis Peter Hoeres Hilary Howes Gregor Pelger Pascal Schillings Angela Schwarz Tara Windsor

Empire, Technology and Seapower Howard J. Fuller,2014-01-03 This book examines British naval diplomacy from the end of the Crimean War to the American Civil War showing how the mid Victorian

Royal Navy suffered serious challenges during the period Many recent works have attempted to depict the mid Victorian Royal Navy as all powerful innovative and even self assured In contrast this work argues that it suffered serious challenges in the form of expanding imperial commitments national security concerns precarious diplomatic relations with European Powers and the United States and technological advancements associated with the armoured warship at the height of the so called Pax Britannica Utilising a wealth of international archival sources this volume explores the introduction of the monitor form of ironclad during the American Civil War which deliberately forfeited long range power projection for local coastal command of the sea It looks at the ways in which the Royal Navy responded to this new technology and uses a wealth of international primary and secondary sources to ascertain how decision making at Whitehall affected that at Westminster The result is a better balanced understanding of Palmerstonian diplomacy from the end of the Crimean War to the American Civil War the early evolution of the modern capital ship including the catastrophic loss of the experimental sail and turret ironclad H M S Captain naval power projection and the nature of empire technology and seapower This book will be of great interest to all students of the Royal Navy and of maritime and strategic studies in general Music in Other Words Ruth A.

Solie,2004-02-19 Publisher Description **English Poetry of the Victorian Period, 1830-1890** Bernard Arthur Richards,2001 Deeply unpoetical was how Matthew Arnold described the Victorian period and many of his contemporaries would have agreed Even to later generations poetic achievement from 1830 to 1890 seems dwarfed by the great burgeoning of the novel However English Poetry of the Victorian Period demonstrates the very real diversity and richness of Victorian poetry This was the era of Tennyson the Brownings Arnold Swinburne Clough the Rossettis and Hopkins poets who not only wrote with distinctly original voices but who also reflected the deeper tensions of their time Bernard Richards balances detailed analysis of individual poets and works with a broader perspective of the poetic spirit of the age Two new chapters have been added to this revised edition on nonsense poetry and women poets He characterises the Victorian age as one of tremendous poetic wealth related to but different from the Romantic period which preceded it and the Modernist period which followed it **Encyclopedia of the Victorian Era** James Eli Adams,2004 Contains 627 alphabetically arranged essays that examine significant people places and events in the social political and intellectual history of Great Britain during the sixty four year reign of Queen Victoria from 1837 to 1901 **The "creed of Science" in Victorian England** Roy M. MacLeod,2000 The nineteenth century which saw the triumph of the idea of progress and improvement saw also the triumph of science as a political and cultural force In England as science and its methods claimed privilege and space its language acquired the vocabulary of religion The new creed of science embraced what John Tyndall called the scientific movement it was in the language of T H Huxley a militant creed The march of invention the discoveries of chemistry and the wonders of steam and electricity culminated in a crusade against ignorance and unbelief It was a creed that looked to its own apostolic succession from Copernicus Galileo and the martyrs of the scientific revolution Yet it was a creed whose doctrines were

divisive and whose convictions resisted. Alongside arguments for materialism, utility, positivism and evolutionary naturalism, persisted reservations about the nature of man, the role of ethics and the limits of scientific method. These essays discuss leading strategists in the scientific movement of late Victorian England. At the same time they show how science established served not only the scientific community but also the interests of imperial and colonial powers.

The Victorian Woman Suzanne Fagence Cooper, 2001. This colourful book explodes the myth of the passive Victorian woman and demonstrates how women rose to the challenges of the age of empire and industry. Drawing on the new Victorian medium of photography as well as the huge range of images from advertising and magazines, it creates a fascinating picture of the diversity of women's achievements at this time.

An Ambiguous Journey to the City Ashis Nandy, 2001. This book examines the myth of the journey from the village to the city and shows how this myth and the changes it has undergone provide rich insight on India's ambivalent affair with the modern city. The first section looks at the vicissitudes of the metaphor of journey, especially the imagination of the hero as it intersects with the imagined city. The next two sections profile various heroes as they negotiate the transitions from the village to the city and back to the village. The final section focuses on the psychopathological journey from a poisoned village into a self-annihilating city and the narrative draws parallels with the violence in 1946-8, the period which saw the birth of modern India and Pakistan.

In the Footsteps of Queen Victoria Christa Jansohn, 2003.

GRADIVA JOURNAL OF CONTEMPORARY THEORY AND PRACTICE, 2000. **Journal for the Study of British Cultures**, 2004. *The Victorians Since 1901* Miles Taylor, Michael Wolff, 2004. Bringing together a group of international scholars from the disciplines of history, English literature, art history and cultural studies, this book identifies and assesses the principle influences on twentieth-century attitudes towards the Victorians.
