and round table will show the wide range of technical possibilities connected with the present use of the Image especially thanks to Computer Graphics from 3D Modeling to Augmented Reality while also offering a glimpse of interesting theoretical perspectives In the end as noted by Martin Heidegger the word theory not only comes from the Ancient Greek verb *theoreo* that is to see to observe but it also echoes the words *theos* and *thea* namely god and goddess and above all it shares the root with the term *aletheia* which is the truth which is not far from the ultimate goal of research
