allies and other baneful herbs of occult herbalism Exploring the path of dark herbalism the author explains how it encompasses not only veneficium poisonous plants and fungi but all plants that humanity has tried to forget from invasive plants and those we can't domesticate to those that have been regulated arbitrarily or simply feared as toxic or poison He shows how the dark herbalist seeks out plants that are adversarial or taboo because the qualities we consider dark are really the plant's spiritual medicine and can offer powerful wisdom and healing Examining poison history lore and occult toxicology he explains how the aim of using these plants is not to cause physical death but rather death of the ego He shows how poison in this sense is an alchemical force that allows the practitioner to become a vessel for the forbidden fruit of knowledge and how the transmutation of our personal poisons can lead to powerful self transformation

The Immortality Key Brian C. Muraresku, 2020-09-29 THE NEW YORK TIMES BESTSELLER As seen on The Joe Rogan Experience A groundbreaking dive into the role psychedelics have played in the origins of Western civilization and the real life quest for the Holy Grail that could shake the Church to its foundations The most influential religious historian of the 20th century Huston Smith once referred to it as the best kept secret in history Did the Ancient Greeks use drugs to find God And did the earliest Christians inherit the same secret tradition A profound knowledge of visionary plants herbs and fungi passed from one generation to the next ever since the Stone Age There is zero archaeological evidence for the original Eucharist the sacred wine said to guarantee life after death for those who drink the blood of Jesus The Holy Grail and its miraculous contents have never been found In the absence of any hard data whatever happened at the Last Supper remains an article of faith for today's 2.5 billion Christians In an unprecedented search for answers The Immortality Key examines the archaic roots of the ritual that is performed every Sunday for nearly one third of the planet Religion and science converge to paint a radical picture of Christianity's founding event And after centuries of debate to solve history's greatest puzzle Before the birth of Jesus the Ancient Greeks found salvation in their own sacraments Sacred beverages were routinely consumed as part of the so called Ancient Mysteries elaborate rites that led initiates to the brink of death The best and brightest from Athens and Rome flocked to the spiritual capital of Eleusis where a holy beer unleashed heavenly visions for two thousand years Others drank the holy wine of Dionysus to become one with the god In the 1970s renegade scholars claimed this beer and wine the original sacraments of Western civilization were spiked with mind altering drugs In recent years vindication for the disgraced theory has been quietly mounting in the laboratory The constantly advancing fields of archaeobotany and archaeochemistry have hinted at the enduring use of hallucinogenic drinks in antiquity And with a single dose of psilocybin the psychopharmacologists at Johns Hopkins and NYU are now turning self proclaimed atheists into instant believers But the smoking gun remains elusive If these sacraments survived for thousands of years in our remote prehistory from the Stone Age to the Ancient Greeks did they also survive into the age of Jesus Was the Eucharist of the earliest Christians in fact a psychedelic Eucharist With an unquenchable thirst for evidence Muraresku takes the reader on his twelve year global hunt

for proof He tours the ruins of Greece with its government archaeologists He gains access to the hidden collections of the Louvre to show the continuity from pagan to Christian wine He unravels the Ancient Greek of the New Testament with the world's most controversial priest He spelunks into the catacombs under the streets of Rome to decipher the lost symbols of Christianity's oldest monuments He breaches the secret archives of the Vatican to unearth manuscripts never before translated into English And with leads from the archaeological chemists at UPenn and MIT he unveils the first scientific data for the ritual use of psychedelic drugs in classical antiquity The Immortality Key reconstructs the suppressed history of women consecrating a forbidden drugged Eucharist that was later banned by the Church Fathers Women who were then targeted as witches during the Inquisition when Europe's sacred pharmacology largely disappeared If the scientists of today have resurrected this technology then Christianity is in crisis Unless it returns to its roots Featuring a Foreword by Graham Hancock the NYT bestselling author of *America Before* LSD — The Wonder Child Thomas Hatsis, 2021-06-29 Explores the different groups from research labs to the military who were seeking how best to utilize LSD and other promising psychedelics like mescaline Reintroduces forgotten scientists like Robert Hyde and Rosalind Heywood Looks at the CIA's notorious top secret mind control program MKUltra Reveals how intellectuals philosophers artists and mystics of the 1950s used LSD to bring ancient rites into the modern age Exploring the initial stages of psychedelic study in Europe and America Thomas Hatsis offers a full history of the psychedelic fueled revolution in healing and consciousness expansion that blossomed in the 1950s the first golden age of psychedelic research Revealing LSD as a wonder child rather than Albert Hofmann's infamous problem child the author focuses on the extensive studies with LSD that took place in the 50s He explores the different groups from research labs to the military to bohemian art circles who were seeking how best to utilize LSD and other promising psychedelics like mescaline Sharing the details of many primary source medical reports the author examines how doctors saw LSD as a tool to gain access to the minds of schizophrenics and thus better understand the causes of mental illness The author also looks at how the CIA believed LSD could be turned into a powerful mind control weapon including a full account of the notorious top secret program MKUltra Reintroducing forgotten scientists like Robert Hyde the first American to take LSD and parapsychologist Rosalind Heywood who believed LSD and mescaline opened doors to mystical and psychic abilities the author also discusses how the influences of Central American mushroom ceremonies and peyote rites crossbred with experimental Western mysticism during the 1950s turning LSD from a possible madness mimicker or mind weapon into a sacramental medicine Finally he explores how philosophers parapsychologists and mystics sought to use LSD to usher in a new age of human awareness **Theurgy: Theory and Practice** P. D. Newman, 2023-12-05 Connects the magical practice of theurgy to the time of Homer Explores the many theurgic themes and events in the *Odyssey* and the *Iliad* Analyzes the writings of Neoplatonists Porphyry and Proclus showing how both describe the technical ritual praxis of theurgy in Homeric terms Examines the methods of telestik a form of theurgic statue animation and technique to

divinize the soul and how theurgy is akin to shamanic soul flight First defined by the second century Chaldean Oracles theurgy is an ancient magic practice whereby practitioners divinized the soul and achieved mystical union with a deity the Demiurge or the One In this detailed study P D Newman pushes the roots of theurgy all the way back before the time of Homer He shows how the Chaldean Oracles were not only written in Homeric Greek but also in dactylic hexameter the same meter as the epics of Homer Linking the Greek shamanic practices of the late Archaic period with the theurgic rites of late antiquity the author explains how both anabasis soul ascent and katabasis soul descent can be considered varieties of shamanic soul flight and how these practices existed in ancient Greek culture prior to the influx of shamanic influence from Thrace and the Hyperborean North The author explores the many theurgic themes and symbolic events in the Odyssey and the Iliad including the famous journey of Odysseus to Hades and the incident of the funeral pyre of Patroclus He presents a close analysis of On the Cave of the Nymphs Porphyry s commentary on Homer s Odyssey as well as a detailed look at Proclus s symbolic reading of Homer s Iliad showing how both of these Neoplatonists describe the philosophical theory and the technical ritual praxis of theurgy Using the Chaldean Oracles as a case study Newman examines in detail the methods of telestik a form of theurgic statue animation linking this practice to ancient Egyptian and Greek traditions as well as theurgic techniques to divinize the soul Revealing how the theurgic arts are far older than the second century Newman s study not only examines the philosophical theory of theurgy but also the actual ritual practices of the theurgists as described in their own words
