Wells / World Literature Classics / Illustrated with Doodles** H G Wells,2021-02-20 One of the classics masterpieces of the written world A must read Illustrated with doodles Complete and Unabridged One of the most famous science fiction stories ever written The War of the Worlds helped launch the entire genre by exploiting the concept of interplanetary travel First published in 1898 the novel terrified readers of the Victorian era with its account of an invasion of hostile creatures from Mars who moved across the English landscape in bizarre metal transports using deadly heat rays to destroy buildings and annihilate all life in their path Its power to stir the imagination was made abundantly clear when Orson Welles adapted the story for a radio drama on Halloween night in 1938 and created a national panic Despite readers increasing sophistication about space travel and interplanetary invaders The War of the Worlds remains a riveting reading experience Its narrative energy intensity and striking originality remain undiminished ready to thrill a new generation of readers with old fashioned storytelling power **The War of the Worlds By H. G. Wells (Annotated Edition)** H G Wells,2020-10-31 The unnamed narrator from Woking England begins by comparing the unsuspecting human population to the contents of a slide on a microscope those contents as unaware of the beings observing them as the Earthlings are of the Martians with intellects vast and cool and unsympathetic who watch them as they go about their daily activities He claims Mars is older than Earth and wonders why man so blinded by his vanity has failed to recognize for so long the probability of the existence of intelligent life on its neighboring planet He observes that just as Mars is cooling as it ages and its inhabitants long for a younger verdant world so too must humanity face the same fate Foreshadowing the destruction the aliens will bring the narrator reminds readers of the cruelty that humans have also brought on their fellow beings as when native Tasmanians were wiped out by British colonialists off the coast of Australia **Illustrated The War of the Worlds by H. G. Wells** H G Wells,2020-11-20 This classic 1898 science fiction novel has teeth to it and it s not just the Martians The War of the Worlds is a lot more thoughtfully written than I had remembered In between deadly heat rays huge tripod machines striding around the country killing everything in their path and bloodthirsty Martians trying to take over Earth starting with Great Britain there s also critique of colonialism religious hypocrisy and even how humans treat animals The ways in which people react in a crisis is given just as much attention as the Martians actions **War of the Worlds by H.G. G. Wells, 2018-10-06 The War of the Worlds by H G Wells No one would have believed in the last years of the nineteenth century that this world was being watched keenly and closely by intelligences greater than man's So begins H G Wells classic novel in which Martian lifeforms take over planet Earth As the Martians emerge they construct giant killing machines armed with heat rays that are impervious to attack Advancing upon London they destroy everything in their path Everything except the few humans they collect in metal traps Victorian England is a place in which the steam engine is state of the art technology and powered flight is just a dream Mankind is helpless against the killing machines from Mars and soon the survivors are left living in a new stone age Includes the original Warwick Goble illustrations **The War of the Worlds - Original Version** H. G. Wells, 2010-02-26 This is the granddaddy of all alien invasion stories first published by H G Wells in 1898 The novel begins ominously as the lone voice of a narrator tells readers that No one would have believed in the last years of the nineteenth century that this world was being watched keenly and closely by intelligences greater than man's Things then progress from a series of seemingly mundane reports about odd atmospheric disturbances taking place on Mars to the arrival of Martians just outside of London At first the Martians seem laughable hardly able to move in Earth's comparatively heavy gravity even enough to raise themselves out of the pit created when their spaceship landed But soon the Martians reveal their true nature as death machines 100 feet tall rise up from the pit and begin laying waste to the surrounding land Wells quickly moves the story from the countryside to the evacuation of London itself and the loss of all hope as England's military suffers defeat after defeat With horror his narrator describes how the Martians suck the blood from living humans for sustenance and how it's clear that man is not being conquered so much as corralled *The War of the Worlds (Complete)* H.
