The Weimar Republic The Crisis Of Classical Modernity

David Roberts

The Weimar Republic The Crisis Of Classical Modernity:

The Weimar Republic Detlev Peukert, 1993-09 About half of Kolb's compact book is devoted to a Historical Survey chronologically divided at the conventional watersheds of 1923-24 and 1929-30. A briefer second part, a historiographical essay in seven topical chapters, is followed by a seven-page chronology, a 676-item classified and topical bibliography, and an index. The bibliography, updated to February 1987, includes some English language titles not in the original German edition and is a list of tremendous value. Frequent references to individual entries as well as to some works not found there tie the bibliography to the historiographical essay, which is characterized by fair and judicious appraisal of interpretations of the period, even when Kolb clearly disagrees. There is a chapter on the revolution of 1918 and its aftermath in the first section, and one on art and mass culture in the second; each section of the survey also has one chapter focusing on foreign policy and one on domestic developments.

The Weimar Republic Detlev J. K. Peukert, 2001

The Impossible Border Annemarie H. Sammartino, 2014-01-03 Between 1914 and 1922 millions of Europeans left their homes as a result of war, postwar settlements, and revolution. After 1918 the immense movement of people across Germany's eastern border posed a sharp challenge to the new Weimar Republic. Ethnic Germans flooded over the border from the new Polish state; Russian migrants poured into the German capital; and East European Jews sought protection in Germany from the upheaval in their homelands. Nor was the movement in one direction only: German Freikorps sought to found a soldiers' colony in Latvia, and a group of German socialists planned to settle in a Soviet factory town. In *The Impossible Border*, Annemarie H. Sammartino explores these waves of migration and their consequences for Germany. Migration became a flashpoint for such controversies as the relative importance of ethnic and cultural belonging, the interaction of nationalism and political ideologies, and whether or not Germany could serve as a place of refuge for those seeking asylum. Sammartino shows the significance of migration for understanding the difficulties confronting the Weimar Republic and the growing appeal of political extremism. Sammartino demonstrates that the moderation of the state in confronting migration was not merely by default but also by design. However, the ability of a republican nation-state to control its borders became a barometer for its overall success or failure. Meanwhile, debates about migration were a forum for political extremists to develop increasingly radical understandings of the relationship between the state, its citizens, and its frontiers. The widespread conviction that the democratic republic could not control its impossible Eastern borders fostered the ideologies of those on the radical right who sought to resolve the issue by force and for all time.

[Democracy in Its Essence](#) Sara Lagi, 2020-10-07 Hans Kelsen is commonly associated with legal theory and philosophy of law. *Democracy in Its Essence* Hans Kelsen as a Political Thinker instead investigates Kelsen's democratic theory as it developed between the 1920s and 1950s, which challenged the existence of democracies in many different respects. Kelsen provided a critical reflection on the strengths and problems of living within a democratic system while also defending it against a series of specific targets, from the Soviet regime and Bolshevism to European Fascisms, from

religious based conceptions of politics to those claiming a perfect identity between capitalism and classical liberal institutions and chiefly against all those ideologies claiming to possess objective understanding of what true freedom and true democracy signify By seeking what he defined as the essence and value of democracy Kelsen elaborated a pluralist relativist constitutional proceduralist and liberal theory of representative democracy characterized by a strong recall to the values of tolerance responsibility and respect toward the other as well as to the idea of politics as space for compromise In this book Sara Lagi reconstructs his political theory as a relevant contribution to the twentieth century liberal democratic tradition of thought while representing a stimulating reflection on the meaning and implication of democracy both as a political system and as a form of co existence *Society, Culture, and the State in Germany, 1870-1930* Geoff Eley, 1996 Bold new essays on Germany's critical Kaiserreich period **The Moment of Rupture** Humberto Beck, 2019-07-26 An instant is the shortest span in which time can be divided and experienced In an instant there is no duration it is an interruption that happens in the blink of an eye For the ancient Greeks kairos the time in which exceptional unrepeatable events occurred was opposed to chronos measurable quantitative and uniform time In *The Moment of Rupture* Humberto Beck argues that during the years of the First World War the Russian Revolution and the rise of fascism in Germany the notion of the instant migrated from philosophy and aesthetics into politics and became a conceptual framework for the interpretation of collective historical experience that in turn transformed the subjective perception of time According to Beck a significant juncture occurred in Germany between 1914 and 1940 when a modern tradition of reflection on the instant spanning the poetry of Goethe the historical self understanding of the French Revolution the aesthetics of early Romanticism the philosophies of Søren Kierkegaard and Friedrich Nietzsche and the artistic and literary practices of Charles Baudelaire and the avant gardes interacted with a new experience of historical time based on rupture and abrupt discontinuity Beck locates in this juncture three German thinkers Ernst Jünger Ernst Bloch and Walter Benjamin who fused the consciousness of war crisis catastrophe and revolution with the literary and philosophical formulations of the instantaneous and the sudden in order to intellectually represent an era marked by the dissolution between the extraordinary and the everyday *The Moment of Rupture* demonstrates how Jünger Bloch and Benjamin produced a constellation of figures of sudden temporality that contributed to the formation of what Beck calls a distinct regime of historicity a mode of experiencing time based on the notion of a discontinuous present **Neighbors and Enemies** Pamela E. Swett, 2004-09-27 Publisher Description *Body Modern* Michael Sappol, 2017-04-11 A poster first printed in Germany in 1926 depicts the human body as a factory populated by tiny workers doing industrial tasks Devised by Fritz Kahn 1888-1968 a German Jewish physician and popular science writer *Der Mensch als Industriepalast* or *Man as Industrial Palace* achieved international fame and was reprinted in various languages and versions all over the world It was a new kind of image an illustration that was conceptual and scientific a visual explanation of how things work and Kahn built a career of this new genre In collaboration with a stable of artists only some

of whom were credited Kahn created thousands of images that were metaphorical allusive and self consciously modern using an eclectic grab bag of schools and styles Dada Art Deco photomontage Art Nouveau Bauhaus functionalism and commercial illustration In *Body Modern* Michael Sappol offers the first in depth critical study of Fritz Kahn and his visual rhetoric Kahn was an impresario of the modern who catered to readers who were hungry for products and concepts that could help them acquire and perform an overdetermined modern identity He and his artists created playful new visual tropes and genres that used striking metaphors to scientifically explain the life of Man This rich and largely obscure corpus of images was a technology of the self that naturalized the modern and its technologies by situating them inside the human body The scope of Kahn s project was vast entirely new kinds of visual explanation and so was his influence Today his legacy can be seen in textbooks magazines posters public health pamphlets educational websites and Hollywood movies But Sappol concludes Kahn s illustrations also pose profound and unsettling epistemological questions about the construction and performance of the self Lavishly illustrated with more than 100 images *Body Modern* imaginatively explores the relationship between conceptual image image production and embodied experience

The German Way of War Robert Michael Citino, 2005 For Frederick the Great the prescription for warfare was simple kurz und vives short and lively wars that relied upon swift powerful and decisive military operations Robert Citino takes us on a dramatic march through Prussian and German military history to show how that primal theme played out time and time again Citino focuses on operational warfare to demonstrate continuity in German military campaigns from the time of Elector Frederick Wilhelm and his great sleigh drive against the Swedes to the age of Adolf Hitler and the blitzkrieg to the gates of Moscow Along the way he underscores the role played by the Prussian army in elevating a small vulnerable state to the ranks of the European powers describes how nineteenth century victories over Austria and France made the German army the most respected in Europe and reviews the lessons learned from the trenches of World War I

The New York Times Book Review, 1992-04 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback

A History of Modern Germany Dietrich Orlow, 1995 Covering the entire period of modern German history from nineteenth century imperial Germany right through the present this well established text presents a balanced general survey of the country s political division in 1945 and runs through its reunification in the present Detailing foreign policy as well as political economic and social developments *A History of Modern Germany* presents a central theme of the problem of asymmetrical modernization in the country s history as it fully explores the complicated path of Germany s troubled past and stable present

[The Weimar Republic and the Rise of Hitler](#) Peter Lambert, 1998 *The Weimar Republic and the Rise of Hitler* synthesizes and evaluates the complex historiography of its subject It explores the major themes and debates and draws widely on a great deal of research in particular by German scholars which is not available in English Three distinctive approaches to the history of the Weimar Republic are identified the perception of

Weimar democracy as being crippled at birth by the survival of pre modern elites and structures embedded in German society the claim that the Republic fell as a result of a crisis of capitalism therepresentation of the failure of the Weimar Republic as emanating from the crisis of classical modernity The tensions between these different approaches continue to exercise historians and run through the bulk of the book Figurations of Women Dancers in Weimar Germany (1918-1933) Susan Laikin Funkenstein,2001 **The Gendered World of the Bauhaus** Anja Baumhoff,2001 Enth u a S 150 155 The female circle versus the male square order and art in the thinking of Johannes Itten S 155 163 The role of sexuality in the thinking of Paul Klee Genius is switching on energy sperm **The Political Role of Catholic Women During the Weimar Republic, 1918-1933** Janet M. C. Walmsley,2000 *Proceedings of the XXth International Congress of History of Science (Liège, 20-26 July 1997).* ,1999 **The Visual Arts in Germany, 1890-1937** Shearer West,2000 Gregorianum ,1997 **Fascist Fashion** Kenneth D. McDonald,1998 The research for this project was completed at the German Federal Archives at Potsdam during the summer fall of 1996 While the bulk of the sources used in this dissertation include government reports and correspondence between government officials the archival sources include selections from the contemporary journal and education literature dealing with fashion and dress newspaper articles organization and budgetary data surveys and questionnaires legal drafts and copies of government regulations In addition the early chapters explore the literature on the theory of dress examining the power of dress on both wearer and observer within a social context **Journal of Women's History** ,2001
