Rogerson, 2018-10-03 This edited collection examines contemporary directions in geographical research on South Africa It encompasses a cross section of selected themes of critical importance not only to the discipline of Geography in South Africa but also of relevance to other areas of the Global South All chapters are original contributions providing a state of the art research baseline on key themes in physical human and environmental geography and in understanding the changing geographical landscapes of modern South Africa These contributions set the scene for an understanding of the relationships between modern South Africa and the wider contemporary world including issues of sustainable development and growth in the Global South *Taking Comedy Seriously* Jennalee Donian, 2018-12-31 This book explores stand up comedy as a relevant sociological phenomenon from a contemporary perspective as both a symptom of neoliberal capitalism and the locus specificus of socio political critique in the era of Empire It draws a feasible connection between the conspicuous rise in the art form s popularity over the past number of years and the dehumanizing and fracturing processes of the current dispensation that are increasingly becoming the defining experience of life in the contemporary era and to which understood in terms of the traditional humor theory of relief of which Sigmund Freud is key comedy serves as an obvious palliative More

than this Taking Comedy Seriously Stand Up's Dissident Potential in Mass Culture in the Context of the Neoliberal Domain of Empire questions the possibility of a contemporary aesthetics of humor given that much of the art form is disseminated and controlled by the mass media and as such complicit in its work. In particular it argues that the ideological situation of global capitalism poses an obvious predicament for the possibility of a socio-politically efficacious stand-up comedy in that ironic and skeptical distance is already characteristic of postmodern cynicism incorporated into the social fabric itself effectively rendering the comedic technique of satire synonymous with so-called political comedy altogether appropriated or at least compromised and subsequently impotent. From where then does a site of resistance emerge? Through an analysis of a range of contemporary televisual, digital and literary examples from the comedic routines of American comedian and talk show host Ellen DeGeneres, South African satirist Pieter Dirk Uys and South African born and now American comedic talk show sensation Trevor Noah, this book argues that a contemporary political comedy is reliant on a structuring aesthetic logic built around dissent, disruption and difference.

At Our Wits' End Edward Dutton, Michael A. Woodley of Menie, 2018-12-20 We are becoming less intelligent. This is the shocking yet fascinating message of *At Our Wits' End*. The authors take us on a journey through the growing body of evidence that we are significantly less intelligent now than we were a hundred years ago. The research proving this is at once profoundly thought-provoking, highly controversial and it's currently only read by academics. But the authors are passionate that it cannot remain ensconced in the ivory tower any longer. With *At Our Wits' End* they present the first ever popular scientific book on this crucially important issue. They prove that intelligence, which is strongly genetic, was increasing up until the breakthrough of the Industrial Revolution because we were subject to the rigors of Darwinian Selection, meaning that lots of surviving children was the preserve of the cleverest. But since then they show intelligence has gone into rapid decline because large families are increasingly the preserve of the least intelligent. The book explores how this change has occurred and crucially what its consequences will be for the future. Can we find a way of reversing the decline of our IQ? Or will we witness the collapse of civilization and the rise of a new Dark Age?

The Great Protector of Wits Laura Nicoli, 2022-06-20 *The Great Protector of Wits* provides a new assessment of Baron d'Holbach 1723-1789 and his circle. A challenging figure of the European Enlightenment, Paul Henri Thiry d'Holbach was not only a radically materialistic philosopher, a champion of anticlericalism, the author of the *Système de la nature* known as the Bible of atheists, an idologist, a popularizer of the natural sciences and a prolific contributor to the *Encyclopédie*, but he also played a crucial role as an organizer of intellectual networks and was a master of disseminating clandestine literature and a consummate strategist in authorial fictions. In this collective volume for the first time all these different threads of d'Holbach's philosophy in action are considered and analyzed in their interconnection. Contributors to this volume: Jacopo Agnesina, Nicholas Cronk, M. Ianie, Ph. M. Enrico Galvagni, Jonathan Israel, Alan Charles Kors, Mladen Kozul, Brunello Lotti, Emilio Mazza, Gianluca Mori, Iryna Mykhailova, Gianni Paganini, Paolo Quintili, Alain Sandrier, Ruggero Sciuto, Maria Susana Seguin and Gerhard Stenger.
