Textbook of Psychiatry for Intellectual Disability and Autism Spectrum Disorder Marco O. Bertelli, Shoumitro (Shoumi) Deb, Kerim Munir, Angela Hassiotis, Luis Salvador-Carulla, 2022-05-11 This textbook provides a state of the art of the knowledge on the prevalence risk and etiological factors clinical features assessment procedures and tools diagnostic criteria treatment and prognosis of the psychiatric disorders encountered in people with intellectual disability ID and low functioning autism spectrum disorder ASD ID and ASD represent two meta syndromic groups of several different conditions each with particular cognitive and communication features People with ID ASD display an increased prevalence of a variety of psychiatric disorders including psychotic disorders mood disorders anxiety and stress related disorders somatoform disorders and obsessive compulsive disorder as well behavioral syndromes personality disorders and disorders due to psychoactive substance use This book will enable readers to understand the specificities of psychiatric disorders in the context of ID ASD It explains clearly how diagnostic criteria and assessment procedures for psychiatric disorders that were created for the general population have to be modified for use with ID ASD Above all it will enable clinicians to overcome difficulties in diagnosis and to deliver more effective care that meets the particular needs of patients with ID ASD [Survey of Academic Links](#) Australian Vice-Chancellors' Committee, 1980 [Who's who of Australian Writers](#), 1995 [International Books in Print](#), 1990 **Developing Critical Language Pedagogies in Higher Education** Adriana Raquel Díaz, 2013-08-09 Despite widespread agreement about the need to develop interculturally competent graduates there is a lack of agreement about how this goal may be achieved in practice This is significant as universities around the world particularly in English speaking countries have espoused an interculturally aware vision for their future graduates and turned to language education as an inherently intercultural activity to expose students to a world which is linguistically and culturally different from their own This book focuses on narrowing the gap between the often conflicting theoretical and practical imperatives faced by language teachers in an internationalised higher education context It does so by providing comprehensive conceptual discussions of emerging critical intercultural language pedagogies as well as empirical accounts and case studies from the frontline [Human Fatigue](#) Francesco Marino, 2019-03-15 Fatigue is a condition spanning the breadth of human functioning in health and disease and is a central concern in sport and exercise Even so we are yet to fully understand its causes One reason for this lack of understanding is that we seldom consider fatigue from an evolutionary perspective as an adaptation that provided reproductive success This ground breaking book outlines the evidence that fatigue is a result of adaptations distinctive to humans It argues that humans developed adaptations which led to enhanced fatigue resistance compared with other mammals and discusses the implications in the context of exercise health and performance Highly illustrated throughout it covers topics such as defining and measuring fatigue the emotional aspect of fatigue how thermoregulation affects the human capacity to resist fatigue and fatigue in disease Human Fatigue is essential
