for the future The report concludes that urban society is worth saving The connection between the high standard of living in America and the urban setting of most American activity today is not coincidental What is called for is a series of actions which will produce at the end a revitalized American urban scene The Federal system already has begun to change yet the need for urban statemanship at all levels remains great Author *Congressional Record* United States. Congress,1991 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 *Problem of the Century* Elijah Anderson,Douglas Massey,2001-07-19 In 1899 the great African American scholar W E B DuBois published The Philadelphia Negro the first systematic case study of an African American community and one of the foundations of American sociology DuBois prophesied that the color line would be the problem of the twentieth century One hundred years later Problem of the Century reflects upon his prophecy exploring the ways in which the color line is still visible in the labor market the housing market education family structure and many other aspects of life at the turn of a new century The book opens with a theoretical discussion of the way racial identity is constructed and institutionalized When the government classifies races and confers group rights upon them is it subtly reenforcing damaging racial divisions or redressing the group privileges that whites monopolized for so long The book also delineates the social dynamics that underpin racial inequality The contributors explore the causes and consequences of high rates of mortality and low rates of marriage in black communities as well as the way race affects a person s chances of economic success African Americans may soon lose their historical position as America s majority minority and the book also examines how race plays out in the sometimes fractious relations between blacks and immigrants The final part of the book shows how the color line manifests itself at work and in schools Contributors find racial issues at play on both ends of the occupational ladder among absentee fathers paying child support from their meager earnings and among black executives prospering in the corporate world In the schools the book explores how race defines a student s peer group and how peer pressure affects a student s grades Problem of the Century draws upon the distinguished faculty of sociologists at the University of Pennsylvania where DuBois conducted his research for The Philadelphia Negro The contributors combine a scrupulous commitment to empirical inquiry with an eclectic openness to different methods and approaches Problem of the Century blends ethnographies and surveys statistics and content analyses census data and historical records to provide a far reaching examination of racial inequality in all its contemporary manifestations The Making of Urban America Raymond A. Mohl,1997-06 This second edition is designed to introduce students of urban history to recent interpretive literature in this field Its goal is to provide a coherent framework for understanding the pattern of American urbanization while at the same time offering specific examples of the work of historians in the field
