**Counter-Insurgency in Nigeria** Akali Omeni, 2017-09-08 This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017. Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims. First it seeks to provide an understanding of the Nigerian military's internal role a role that today as a result of internal threats pivots towards counter insurgency. The book illustrates how organizational culture historical experience

institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work s analysis of the air force s role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general Terrorist Recognition Handbook Malcolm W. Nance, Desmond Wenger, 2017-09-20 First published in 2003 Terrorist Recognition Handbook A Practitioner s Manual for Predicting and Identifying Terrorist Activities remains one of the only books available to provide detailed information on terrorist methodology revealing terrorist motivation organizational structure planning financing and operational tactics to carry out attacks **Military Review**, 2011

To avoid the footpaths which may have been mined with improvised explosive devices IEDs Ryan Evans a U S federal civilian was walking across a wheat field in Babaji Helmand Province in the spring of 2011 Evans was attached to the Royal Highland Fusiliers 2 Scots C Company a heavy infantry patrol tasked with providing security in the vicinity Begun 2 years earlier the Helmand Food Zone Program was a form of development intervention which offered subsidies seed and fertilizers to farmers who replaced lucrative opium cultivation from poppies with growing and harvesting wheat and vegetable crops Babaji had been in the control of insurgents until a few months earlier and had not received any assistance from the program during the previous year consequently there were tensions between the community and British forces As Evans and the patrol emerged from the field an Afghan man sitting nearby clearly irate shouted in Pashto that the British soldiers had wanted the farmer to grow wheat instead of poppy

and then the same British soldiers walked through their fields At the immediate level the encounter demonstrated the direct link between conflict food security and local trade but conflict has many interrelated and mutual dependencies such that the anecdote is instructive on myriad broader milieus Where for example is the tipping point that makes a civilian value creating an expression of discontent to a heavily armed patrol above his immediate physical security Do livelihoods and cultures affect military strategies Are there interdependencies between insurgencies societies and economies Does the language of war require a sociological grammar in order to be understood Armed conflict is a human enterprise such that by extension understanding of the human dimension in a given area of operations should be thought integral to planning successful operations
