Few societies have faced the difficulties of identity building experienced by Rwanda. This book's introduction reviews literature on the concepts of myth and trauma and then introduces basic information on Rwanda and how it has been viewed by the outside world. Chapter One describes early Rwanda's political and cultural development, traditional narratives, group migrations, the effects of German and later Belgian colonialism, and the introduction of Christianity. It concludes with a look at how this early history has been interpreted and reinterpreted. The second chapter discusses the end of Tutsi dominance and the 1959 Hutu Revolution. It details Hutu Power ideology, Belgian domestic politics, early acts of genocide, refugee movements, and economic and political stagnation. The text documents the development of the Rwandan Patriotic Front, its 1990 invasion, and the Arusha peace process. An account of the 1994 genocide follows. However, as this has been covered in numerous other works, descriptions are limited to key events and general patterns. The chapter ends with a review of films, books, and other publications that brought Rwanda's plight to a worldwide audience but that also created new myths. Chapter Three examines the country's post-genocide reconstruction and attempts to bring justice and reconciliation through the International Criminal Tribunal for Rwanda in Tanzania and gacaca courts. Domestically, Rwanda's impressive record of economic progress over the last two decades is detailed. However, prospects for democracy have diminished as its leaders have become increasingly sensitive to criticism and fearful of renewed divisions. Descriptions of the process of developing school curriculums to explain past atrocities, the new myths it created, and their possible consequences comprise most of Chapter Four. The final chapter offers conclusions on the effects of past mythologies and the trauma they have wrought. It draws comparisons with other divided societies and their approaches to dealing with the past. These include Burundi, Ethiopia, South Africa, the United States, Taiwan, Canada, Belgium, Switzerland, and Singapore. An extensive bibliography of books, theses, conference papers, official documents, articles, periodicals, journals, films, websites, other media, and interviews includes translations of titles in Kinyarwanda, French, Dutch, and German.

The Afrocentric Praxis of Teaching for Freedom Joyce E. King, Ellen E. Swartz, 2015-08-27

The Afrocentric Praxis of Teaching for Freedom explains and illustrates how an African worldview as a platform for culture-based teaching and learning helps educators to retrieve African heritage and cultural knowledge which have been historically discounted and decoupled from teaching and learning. The book has three objectives: To exemplify how each of the emancipatory pedagogies it delineates and demonstrates is supported by African worldview concepts and parallel knowledge; general understandings, values, and claims that are produced by that worldview; To make African Diasporan cultural connections visible in the curriculum through numerous examples of cultural continuities seen in the actions of Diasporan groups and individuals that consistently exhibit an African worldview or cultural framework; To provide teachers with content drawn from Africa's legacy to humanity as a model for locating all students and the cultures and groups they represent as subjects in the curriculum and pedagogy of schooling. This book expands the Afrocentric praxis

presented in the authors Re membering History in Teacher and Student Learning by combining re membered democratized historical content with emancipatory pedagogies that are connected to an African cultural platform 2005/Spring Congressional Staff Directory ,2005 Deep Stall Philip K. Lawrence,David W. Thornton,2017-05-15 Deep Stall applies a framework of strategic analysis to the Boeing Company Boeing is the world s largest aerospace defence company with turnover in the region of US 60bn The book examines the relative decline of Boeing in the civil aircraft market in relation to European manufacturer Airbus The aim of the book is to utilize the concept of strategic value to explain Boeing s decline The authors define this concept as investment in people and technology to leverage future market success by developing innovative new products arguing that Boeing has neglected strategic value in favour of shareholder value defined in terms of short term cash benefits The rationale for the book exists both in the fact that the story in itself is interesting and also in the wider framework of analysis concerning the correct strategic approach for running a high technology business The argument illustrates what can happen when quarterly returns become the predominant strategic rationale for a company In the U S the business media Economist Forbes Fortune and Business Week etc are now focusing on the question of Boeing s decline and the major implications for the U S national interest Boeing is one of the jewels in the US technology crown but today U S jobs and capability are being exported abroad with most of its aircraft program work based in Asia This is a hot topic in the US which explains why the business media are now so interested in this question The book sits squarely in the centre of this debate Deep Stall concludes with a brief analysis of the recent fight back that has been evident in Boeing s fortunes and the successful campaign to sell the new 787 The authors probe the question of whether Airbus or Boeing is likely to dominate in the next ten or fifteen years The Statesman's Yearbook 2008 B. Turner,2017-01-12 The 2008 edition of The Statesman s Yearbook contains information and analysis on every country in the world including biographical profiles of current leaders government histories economic overviews and maps Every copy comes with a single user licence giving access to the full text online updated regularly and fully searchable The Substance of Representation John S. Lapinski,2013-09-08 Lawmaking is crucial to American democracy because it completely defines and regulates the public life of the nation Yet despite its importance political scientists spend very little time studying the direct impact that the politics surrounding a particular issue has on lawmaking The Substance of Representation draws on a vast range of historical and empirical data to better understand how lawmaking works across different policy areas Specifically John Lapinski introduces a theoretically grounded method for parsing policy issues into categories and he shows how policymaking varies in predictable ways based on the specific issue area being addressed Lapinski examines the ways in which key factors that influence policymaking matter for certain types of policy issues and he includes an exhaustive look at how elite political polarization shifts across these areas He considers how Congress behaves according to the policy issue at hand and how particular areas such as war sovereignty issues and immigration reform change legislative performance Relying on records of all Congressional votes since

Reconstruction and analyzing voting patterns across policy areas from the late nineteenth to late twentieth centuries Lapinski provides a comprehensive historical perspective on lawmaking in order to shed light on current practices Giving a clear picture of Congressional behavior in the policymaking process over time The Substance of Representation provides insights into the critical role of American lawmaking **The Budget of the United States Government** United States. Bureau of the Budget,1957 **Looking North, Looking South** Anne-Marie Brady,2010 Looking North Looking South brings together the work of leading China Taiwan and Pacific politics specialists to analyse a topic of growing importance China and Taiwan s ever growing involvement in the South Pacific China is on the rise in Asia Africa South America the Caribbean even Antarctica and the Arctic China s activities in the South Pacific are part of this rise Looking North Looking South locates China s involvement in the South Pacific within the context of China s wider foreign policy and the challenges it poses to the traditional dominant powers of the region The China Taiwan rivalry has helped to seriously alter the balance of traditional influence in the South Pacific China is now one of the largest aid donors in the region squeezing out Australia New Zealand and the United States both in terms of funding and influence The United States Catalog ,1906 **Higher Education: Handbook of Theory and Research** John C. Smart,2006-05-11 Published annually since 1985 the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities Each chapter provides a comprehensive review of research findings on a selected topic critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic The Handbook focuses on twelve general areas that encompass the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community The series is fortunate to have attracted annual contributions from distinguished scholars throughout the world

The Sounding of the Whale D. Graham Burnett,2012-01-31 In The Sounding of the Whale D **William Stephens** Julie Anne Sweet,2010-05 In 1737 Englishman William Stephens 1671 1753 sailed to Georgia to serve as colonial secretary to its British Board of Trustees His lucid reports on the condition of Georgia deeply impressed the board which eventually appointed him president of the troubled colony The elderly Stephens adroitly shepherded the fledgling settlement over the following decade through a precarious and tumultuous period Though Stephens s actions proved critical to the survival of colonial Georgia historians have largely overlooked his life story In William Stephens Georgia s Forgotten Founder Julie Anne Sweet not only fills that gap she uses the story of Stephens s life as an opportunity to illuminate vital details in the history of early Georgia She opens by exploring the relationship between Stephens and the British Board of Trustees demonstrating Stephens s absolute loyalty to his employer He carried out orders without question making numerous enemies within the colony as a consequence By closely examining Stephens s interactions with various political officials and adversaries Sweet highlights the complicated nature of colonial administration She also examines Stephens s involvement with international

diplomacy and military defense during one of Britain's many wars with Spain and his efforts to maintain good relations with nearby Indian nations Sweet complements her focus on the public aspects of Stephens's career with a careful analysis of his life beyond politics including his family his agricultural endeavors and his religious convictions As a result her captivating intellectual biography of Stephens also provides a deeper and more nuanced understanding of the political and social forces at work in colonial Georgia
