When The Rivers Run Dry Water The Defining Crisis Of The Twenty First Century:

When the Rivers Run Dry Fred Pearce,2006 It was with the Colorado River that engineers first learned to control great rivers But now the Colorados reservoirs are two thirds empty Great rivers like the Indus and the Nile the Rio Grande and the Yellow River are running on empty And economists say that by 2025 water scarcity will cut global food production by more than the current U S grain harvest Veteran science correspondent Fred Pearce traveled to more than thirty countries while researching *When the Rivers Run Dry* it is our most complete portrait yet of the growing world water crisis Deftly weaving together the complicated scientific economic and historical dimensions of the crisis he shows us its complex origins from waste to wrong headed engineering projects to high yield crop varieties that have kept developing countries from starvation but are now emptying their water reserves And Pearces vivid reportage reveals the personal stories behind failing rivers barren fields desertification water wars floods and even the death of cultures Finally Pearce argues that the solution to the growing worldwide water shortage is not more and bigger dams but greater efficiency and a new water ethic based on managing the water cycle for maximum social benefit rather than narrow self interest *When the Rivers Run Dry, Fully Revised and Updated Edition* Fred Pearce,2018-08-28 A new edition of the veteran science writer s groundbreaking work on the world s water crisis featuring all new reporting from the most recent global flashpoints Throughout history rivers have been our foremost source of fresh water for both agriculture and individual consumption but looming water scarcity threatens to cut global food production and cause conflict and unrest In this visionary book Fred Pearce takes readers around the world on a tour of the world s rivers to provide our most complete portrait yet of the growing global water crisis and its ramifications for us all With vivid on the ground reporting Pearce deftly weaves together the scientific economic and historic dimensions of the water crisis showing us its complex origins from waste to wrong headed engineering projects to high yield crop varieties that have saved developing countries from starvation but are now emptying their water reserves Pearce argues that the solution to the growing worldwide water shortage is more efficiency and a new water ethic based on managing the water cycle for maximum social benefit rather than narrow self interest Running Into Water Angela Blycker,2009-12-15 *Running into Water* is not just another woman s book it s an articulate and compelling call to women and mothers from every dialect of life for renewed purpose and hope We all desperately need water to sustain our physical lives just as we need God to sustain our spiritual lives The idea of women immersed in God transformed through the practice of motherhood is as much as for who women will be as it is for who the next generation will become This endeavor demands that mothers not only be heartfelt women but intellectual ones engaging the world around them Women in pursuit of God live lives that are anything but commonplace their mothering becomes anything but ordinary To be a woman mother and learner of Christ applying his freedom and teaching to life is much more than good morality or a safe dull existence it is a profound resurrection to life as its meant to be Angela Blycker invites you to join her on this personal global thoughtful and applicable journey in *Running*

into Water as she explores and interweaves the beliefs and questions about pursuing God gives evidence of practical implications of this in the lives of women internationally through the bold application of spiritual truths and presents insightful vision for intentional motherhood Despite the continued struggles of women and children Running into Water shows that their pursuit of God is as powerful as a mighty rushing river winding in every direction breaking up dry ground in different ways and in various times but always with the intent to deliver life now and in the coming generations
