Writings On Empire And Slavery:

Writings on Empire and Slavery Alexis de Tocqueville, 2001 In *Writings on Empire and Slavery* Jennifer Pitts has selected and translated nine of his most important dispatches on Algeria which offer startling new insights into both Tocqueville's political thought and French liberalism's attitudes toward the political military and moral aspects of France's colonial expansion

Tocqueville, Covenant, and the Democratic Revolution Barbara Allen, 2005-01-01 Tocqueville's *Covenant and the Democratic Revolution* examines the intellectual and institutional context in which Alexis de Tocqueville developed his understanding of American political culture with its profound influence on his democratic theory American democracy Tocqueville maintained had emerged from the covenant tradition of Reformed Protestantism The covenant or foederal theology of New England Puritans provided the ideational basis for federated church and civil government which directly influenced the American constitutionalism and the republican institutions that Tocqueville later observed Tocqueville suggested that the principles underlying American constitutionalism offered broader lessons in the art and science of self government An important book for scholars of Tocqueville as well as American political thought this book suggests that an understanding of the American covenant tradition is critical to our interpretation of Tocqueville's analysis of the democratic revolution and the new science of politics it necessitated

Slavery and the British Empire Kenneth Morgan, 2007-12-06 *Slavery and the British Empire* provides a clear overview of the entire history of British involvement with slavery and the slave trade from the Cape Colony to the Caribbean The book combines economic social political cultural and demographic history with a particular focus on the Atlantic world and the plantations of North America and the West Indies from the mid seventeenth century onwards Kenneth Morgan analyses the distribution of slaves within the empire and how this changed over time the world of merchants and planters the organization and impact of the triangular slave trade the work and culture of the enslaved slave demography health and family life resistance and rebellions the impact of the anti slavery movement and the abolition of the British slave trade in 1807 and of slavery itself in most of the British empire in 1834 As well as providing the ideal introduction to the history of British involvement in the slave trade this book also shows just how deeply embedded slavery was in British domestic and imperial history and just how long it took for British involvement in slavery to die even after emancipation

America Through European Eyes Aurelian Crăciun, Jeffrey C. Isaac, 2009 A collection of essays that discuss representative eighteenth and nineteenth century French and English views of American democracy and society and offer a critical assessment of various narrative constructions of American life society and culture Provided by publisher

Writing the History of Slavery David Stefan Doddington, Enrico Dal Lago, 2022-01-13 Exploring the major historiographical theoretical and methodological approaches that have shaped studies on slavery this addition to the *Writing History* series highlights the varied ways that historians have approached the fluid and complex systems of human bondage domination and exploitation that have developed in societies across the world The first part examines more recent attempts

to place slavery in a global context touching on contexts such as religion empire and capitalism In its second part the book looks closely at the key themes and methods that emerge as historians reckon with the dynamics of historical slavery These range from politics economics and quantitative analyses to race and gender to psychohistory history from below and many more Throughout examples of slavery and its impact are considered across time and place in Ancient Greece and Rome Medieval Europe colonial Asia Africa and the Americas and trades throughout the Atlantic and Indian Oceans Also taken into account are thinkers from Antiquity to the 20th century and the impact their ideas have had on the subject and the debates that follow This book is essential reading for students and scholars at all levels who are interested in not only the history of slavery but in how that history has come to be written and how its debates have been framed across civilizations *The Empire of Necessity* Greg Grandin, 2014-01-14 Documents an early nineteenth century event that inspired Herman Melville's Benito Cereno tracing the cultural economic and religious clash that occurred aboard a distressed Spanish ship of West African pirates Writing the History of Global Slavery Trevor Burnard, 2023-11-29 This Element shows that existing models of global slavery derived from sociology and modelled closely on antebellum American slavery being normative should be replaced a global slavery that is less American and more global It argues that we can understand the global history of slavery if we connect it more closely to another important world institution empires in ways that historicise the study of history as an institution with a history that changes over time and space Moreover we can learn from scholars of modern slavery and use more than we do the enormous proliferation of usable sources about the lives experiences and thoughts of the enslaved from ancient to modern times to make these voices of the enslaved crucial drivers of how we conceptualise and describe the varied kinds of global slavery in world history This title is also available as Open Access on Cambridge Core **Discourses of Slavery and Abolition** B. Carey, M. Ellis, S. Salih, 2004-05-25 Discourses of Slavery and Abolition brings together for the first time the most important strands of current thinking on the relationship between slavery and categories of writing oratory and visual culture in the long Eighteenth century The book begins by examining writing about slavery and race by both philosophers and by authors such as Aphra Behn It considers self representation in the works of Ignatius Sancho Olaudah Equiano James Williams and Mary Prince The final section reads literary and cultural texts associated with the abolition movements of the Eighteenth and Nineteenth centuries moving beyond traditional accounts of the documents of that movement to show the importance of religious writing children's literature and the relationship between art and abolition *Into Print* Charles Walton, 2011-01-01 The famous clash between Edmund Burke and Tom Paine over the Enlightenment's evil or liberating potential in the French Revolution finds present day parallels in the battle between those who see the Enlightenment at the origins of modernity's many ills such as imperialism racism misogyny and totalitarianism and those who see it as having forged an age of democracy human rights and freedom The essays collected by Charles Walton in *Into Print* paint a more complicated picture By focusing on print culture the production circulation and reception of Enlightenment

thought they show how the Enlightenment was shaped through practice and reshaped over time These essays expand upon an approach to the study of the Enlightenment pioneered four decades ago the social history of ideas The contributors to *Into Print* examine how writers printers booksellers regulators police readers rumormongers policy makers diplomats and sovereigns all struggled over that broad range of ideas and values that we now associate with the Enlightenment They reveal the financial and fiscal stakes of the Enlightenment print industry and in turn how Enlightenment ideas shaped that industry during an age of expanding readership They probe the limits of Enlightenment universalism showing how demands for religious tolerance clashed with the demands of science and nationalism They examine the transnational flow of Enlightenment ideas and opinions exploring its domestic and diplomatic implications Finally they show how the culture of the Enlightenment figured in the outbreak and course of the French Revolution Aside from the editor the contributors are David A Bell Roger Chartier Tabet Ewing Jeffrey Freedman Carla Hesse Thomas M Luckett Sarah Maza Renato Pasta Thierry Rigogne Leonard N Rosenband Shanti Singham and Will Slauter

Women Writing the West Indies, 1804-1939 Evelyn O'Callaghan, 2004 This pioneering study surveys 19th and 20th century narratives of the West Indies written by white women English and Creole with special regard to race and gender
