Unequal Sisters Stephanie Narrow, Kim Cary Warren, Judy

Tzu-Chun Wu, Vicki L Ruiz, 2023-08-28 *Unequal Sisters* has become a beloved and classic reader providing an unparalleled resource for understanding women's history in the United States today. First published in 1990, the book revolutionized the field with its broad multicultural approach emphasizing feminist perspectives on race, ethnicity, region, and sexuality, and covering the colonial period to the present day. Now in its fifth edition, the book presents an even wider variety of women's experiences. This new edition explores the connections between the past and the present and highlights the analysis of queerness, transgender identity, disability, the rise of the carceral state, and the bureaucratization and militarization of migration. There is also more coverage of Indigenous and Pacific Islander women. The book is structured around thematic clusters: conceptual, methodological, approaches to women's history, bodies, sexuality, and kinship, and agency and activism. This classic work has incorporated the feedback of educators in the field to make it the most user-friendly version to date and will be of interest to students and scholars of women's history, gender and sexuality studies, and the history of race and ethnicity.

Lofty Dogmas Deborah Brown, Annie Finch, Maxine Kumin, 2005-09-01. Compiled by three noted poets, this is an eclectic, stimulating, and informed selection of poets' remarks on poetry spanning eras, ethnicities, and aesthetics. The 102 selections from nearly as many poets reach back to the Greeks and Romans, then draw on Chaucer, Shakespeare, Sidney, and Milton, on to Shelley, Keats, Coleridge, and Poe, then Hopkins, Yeats, Eliot, Rilke, and Pound, concluding with many of our contemporaries including Hall Clifton Mackey, Kunitz, and Rukeyser. The book is divided into three sections: Musing concerns issues of inspiration; Making issues of craft from diction to meter to persona and voice; and Mapping the role of poetry and the poet. Headnotes at the beginning of each selection provide background information about the poet and commentary on the significance of the selection. There is also a useful appendix with a listing of essays arranged according to more specific topics. As the poets write in their introduction, "This book was intended to deepen readers' understanding of age-old poetic ideas while at the same time pointing out new directions for thinking about poetry, juxtaposing the familiar and the strange, reconfiguring old boundaries, and shaking up stereotypes."

Eating Identities

Wenying Xu, 2007-11-13 The French epicure and gastronome Brillat Savarin declared Tell me what you eat and I will tell you who you are Wenying Xu infuses this notion with cultural political energy by extending it to an ethnic group known for its cuisines Asian Americans She begins with the general argument that eating is a means of becoming not simply in the sense of nourishment but more importantly of what we choose to eat what we can afford to eat what we secretly crave but are ashamed to eat in front of others and how we eat Food as the most significant medium of traffic between the inside and outside of our bodies organizes signifies and legitimates our sense of self and distinguishes us from others who practice different foodways Narrowing her scope Xu reveals how cooking eating and food fashion Asian American identities in terms of race ethnicity gender class diaspora and sexuality She provides lucid and informed interpretations of seven Asian American writers John Okada Joy Kogawa Frank Chin Li Young Lee David Wong Louie Mei Ng and Monique Truong and places these identity issues in the fascinating spaces of food hunger consumption appetite desire and orality Asian American literature abounds in culinary metaphors and references but few scholars have made sense of them in a meaningful way Most literary critics perceive alimentary references as narrative strategies or part of the background Xu takes food as the central site of cultural and political struggles waged in the seemingly private domain of desire in the lives of Asian Americans Eating Identities is the first book to link food to a wide range of Asian American concerns such as race and sexuality Unlike most sociological studies which center on empirical analyses of the relationship between food and society it focuses on how food practices influence psychological and ontological formations and thus contributes significantly to the growing field of food studies For students of literature this tantalizing work offers an illuminating lesson on how to read the multivalent meanings of food and eating in literary texts

Multiethnic Literature and Canon Debates Mary Jo Bona, Irma Maini, 2012-02-16 This groundbreaking collection reinvigorates the debate over the inclusion of multiethnic literature in the American literary canon While multiethnic literature has earned a place in the curriculum on many large campuses it is still a controversial topic at many others as recent campus and corporate revivals of The Great Books attest Many still perceive multiethnic literature as being governed by ideological and political issues perpetuating a false distinction between highbrow literary texts and multiethnic works Through historical overviews and textual analyses the contributors not only argue for the aesthetic validity of multiethnic literature but also examine the innovative ways in which multiethnic literature is taught and critiqued The following questions are also addressed Who and what determines literary value What role do scholars students the reading public book awards and or publishers play in affirming literary value Taken together these essays underscore the necessity for maintaining vibrant conversations about the place of multiethnic literature both inside and outside the academy
