 attained through his highly trained clairvoyance Rudolf Steiner contends that folk traditions regarding nature spirits are
 based on spiritual reality He describes how people possessed a natural spiritual vision in ancient times enabling them to
 commune with nature spirits These entities which are also referred to as elemental beings became immortalised as fairies
 and gnomes in myth legend and children s stories Today says Steiner the instinctive understanding that humanity once had
 for these elemental beings should be transformed into clear scientific knowledge He even asserts that humanity will not be
 able to reconnect with the spiritual world if it cannot develop a new relationship to the elementals The nature spirits
 themselves want to be of great assistance to us acting as emissaries of higher divine spiritual beings
