University Of Limpopo Closing Dates For 2015:

Thabo Mbeki Mark Gevisser, 2022-05-06 Hailed in the Times Literary Supplement as probably the finest piece of non fiction to come out of South Africa since the end of apartheid The Dream Deferred is back in print and updated with a brilliant new epilogue The prosperous Mbeki clan lost everything to apartheid Yet the family saw its favourite son Thabo rise to become president of South Africa in 1999 A decade later Mbeki was ousted by his own party and his legacy is bitterly contested particularly over his handling of the AIDS epidemic and the crisis in Zimbabwe Through the story of the Mbeki family award winning journalist Mark Gevisser tells the gripping tale of the last tumultuous century of South Africa life following the family's path to make sense of the liberation struggle and the future that South Africa has inherited At the centre of the story is Mbeki a visionary yet tragic figure who led South Africa to freedom but was not able to overcome the difficulties of his own dislocated life It is 15 years since Mbeki was unceremoniously dumped by the ANC giving rise to the wasted years under Jacob Zuma With the benefit of hindsight and as Mbeki reaches the age of 80 Gevisser examines the legacy of the man who succeeded Mandela essential reading for anyone intrigued by South Africa's complex philosopher king The Economist

Breaking a Rainbow, Building a Nation Rekgotsofetse Chikane, 2018-10-01 Breaking a Rainbow Building a Nation is a first hand account of the university protests that gripped South Africa between 2015 and 2017 widely better known as the FeesMustFall Chikane outlines the nature of student politics in the country before during and after the emergence of MustFall politics exploring the political dynamics that informed and drove the student protests and the effect that these MustFall movements have had on the nature of youth politics in the country Chikane looks at how the current nature of youth politics is different from previous youth upheavals that have defined South Africa specifically due to the fact that the protests were being led by so called coconuts who are part of the black elite Breaking a Rainbow Building

a Nation poses the provocative question can coconuts be trusted with the revolution Development of a Regional Aquatic Biosecurity Strategy for the Southern African Development Community (SADC) Food and Agriculture Organization of the United Nations,2018-12-19 This document details the activities that were undertaken by the Food and Agriculture Organization of the United Nations FAO and cooperating agencies the Department of Agriculture Forestry and Fisheries of South Africa DAFF the Africa Union Inter African Bureau for Animal Resources AU IBAR and the Southern Africa Development Community SADC leading to the production of a Regional Aquatic Biosecurity Strategy for the Southern African Development Community SADC and its subsequent adoption by SADC and incorporation into SADC programmes These activities include 1 assessment of national aquatic animal health performance and capacity for 14 of the 15 SADC member countries through the conducting of a Southern African Development Community SADC regional aquatic animal health capacity and performance survey 2 the convening of the FAO DAFF AU IBAR SADC Regional Workshop on Improving Aquatic Animal Health Management and Strengthening Biosecurity Governance in Africa held in Durban South Africa from 5 7 November 2014 with one of the specific objectives being to develop a SADC Regional Framework for an Aquatic Biosecurity Strategy 3 the finalization of the draft Regional Aquatic Biosecurity Strategy for the Southern African Development Community SADC by the FAO team 4 the submission of the strategy to the SADC Fisheries Technical Committee April 2015 and its submission to SADC for official approval by the SADC Council of Ministers April 2017 Included as annexes to the report are Annex I the Southern African Development Community SADC Regional aquatic animal health capacity and performance survey Summary of survey results and analysis Annex II The Report of the FAO DAFF AU IBAR SADC Regional Workshop on Improving Aquatic Animal Health Management and Strengthening Biosecurity Governance in Africa and Annex III the Regional aquatic biosecurity strategy for the Southern African Development Community SADC The process was long but the most important is that it was done using a systematic approach that lead to good understanding leading to better consensus building wide ownership and strong government commitment **Sustainable Management of Soil and**

Environment Ram Swaroop Meena,Sandeep Kumar,Jitendra Singh Bohra,Mangi Lal Jat,2019-10-02 Fertilizers have been used extensively around the globe since the Green Revolution due to the high subsidies However extensive fertilizer use exacerbates soil degradation and causes yield stagnation and as a result threatens food security and soil sustainability especially in developing countries This means that sustainable soil and environmental management are vital to provide food and nutritional security for present and future generations This has led to the International Union of Soil Science IUSS declaring 2015 2024 the International Decade of Soils This book focuses on the impact of sustainable management of soil and environment on improving the functioning of soil ecosystems and agronomic productivity and also discusses food security nutrient cycling recent advances in INM technologies eco friendly cultivation agricultural practices to reduce greenhouse gas GHG emissions as well as conservation agriculture and its effects and strategies for soil sustainability Offering a

comprehensive overview of management in the context of the sustainability of soil and the agroecosystems that it supports it demonstrates the options available and provides insights into restoring soil health and matching soil nutrient supply with crop demand to ensure nutritional security in an eco friendly environment *Examining the Impact of Industry 4.0 on Academic Libraries* Josiline Phiri Chigwada, Ngozi Maria Nwaohiri, 2021-01-08 Due to the rapid acceleration of industry 4.0 it is more important than ever to understand the impact of technological revolutions on the academic library This edited collection showcases the effects on how libraries function manage processes and continue to deliver products and services on a day to day basis *The United Nations world water development report 2016: water and jobs* UNESCO, 2016-02-29 The United Nations World Water Assessment Programme Wwap is hosted and led by UNESCO Wwap brings together the work of 31 UN Water Members as well as 38 Partners to publish The United Nations World Water Development Report Wwdr series The annual World Water Development Reports focus on strategic water issues UN Water Members and Partners all experts in their fields contribute with latest findings on a specific theme This edition of the World Water Development Report focuses on Water and Jobs and seeks to inform decision makers inside and outside the water community about the importance of the water and jobs nexus for the social and economic development and environmental sustainability of countries rich and poor The importance of water for jobs across economies is such that this report could be subtitled No water No jobs Indeed a great majority of jobs are dependent upon water and therefore increasingly at risk under conditions of water scarcity T Corrupted Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions Why do some universities seem to be in a constant state of turmoil and dysfunction Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic namely graduation certificates for sale assets of these institutions Jansen argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve

Sustainable Education and Development—Clean Energy Clinton Aigbavboa,Wellington Thwala,Joseph N.

Mojekwu, Lawrence Atepor, Emmanuel Adinyira, Gabriel Nani, Emmanuel Bamfo-Agyei, 2025-02-07 This book is Volume 1 of the proceedings of 2023 Sustainable Education and Development Research Conference This volume concentrates on papers in the area of clean energy Despite considerable progress more than 700 million people worldwide still lack access to electricity and around 2.4 billion people continue to use harmful and polluting fuels for cooking While efforts have been made to promote renewable energy and energy efficiency they have not been fast enough to achieve Sustainable Development Goal 7 Adding to the challenge the ongoing war in Ukraine has contributed to rising global energy prices and heightened energy insecurity in Europe In response to the energy crisis some European countries are planning to accelerate the transition to renewables and increase investments in clean energy and energy efficiency However others are considering a resurgence of coal which poses a risk to the overall green transition Between 2010 and 2020 the percentage of the global population with access to electricity increased from 83% to 91% with 1.3 billion people gaining access Nevertheless this leaves approximately 733 million people still without electricity and most of them reside in sub-Saharan Africa Achieving universal access by 2030 the annual growth rate in access needs to accelerate from 0.5 percentage points to 0.9 percentage points necessitating significant efforts in low income fragile and conflict affected countries In 2020 69% of the global population had access to clean cooking fuels and technologies While more than half of those without access to clean cooking fuels live in Asia the 20 countries with the lowest percentage of people having access to clean cooking were predominantly least developed countries in Africa The share of renewable sources in total final energy consumption reached 17.7% globally in 2019 just slightly higher than the figure for 2015 The electricity sector leads in the adoption of renewables accounting for 26.2% of total final energy consumption in 2019 while the heat and transport sectors have made limited progress Global primary energy intensity defined as global total energy supply per unit of GDP improved from 5.6 megajoules per dollar 2017 purchasing power parity in 2010 to 4.7 megajoules in 2019 However the rate of improvement 1.6% per year on average since 2015 falls short of the 3.2% annual rate needed to reach Sustainable Development Goal 7.3 International financial flows to support clean and renewable energy in developing countries reached 10.9 billion in 2019 a 23.6% decrease from 2018 This decline occurred even before the onset of the COVID-19 pandemic Over a longer five year moving average average annual commitments decreased for the first time since 2008 from 17.5 billion in 2014 to 16.6 billion in 2019 Although developing countries achieved a record of 245.7 watts per capita in installed renewable energy generating capacity in 2020 small island developing States least developed countries and landlocked developing countries have lagged behind It would take least developed countries and landlocked developing countries nearly 40 years and small island developing States almost 15 years to reach the same level of progress as the average developing country in 2020 The 2023 SEDRC conference

titled Sustainable Development and Education aims to redefine the understanding of research in the continent's development and the role of researchers. The conference focusses on applied research discussions and its dissemination. Researchers from research institutions, academicians, postgraduate students, politicians, and industry representatives will be the primary audience for the conference proceedings.

Border Culture Victor Konrad, Anne-Laure Amilhat Szary, 2022-12-29 This book introduces readers to the cultural imaginings of borders, the in-between spaces in which transnationalism collides with geopolitical cooperation and contestation. Recent debates about the refugee crisis and the spread of the COVID-19 pandemic have politicized culture at and of borders like never before. Border culture is no longer culture at the margins but rather culture at the heart of geopolitics, flows, and experience of the transnational world. Increasingly, culture and borders are everywhere yet nowhere. In border spaces, national narratives and counter narratives are tested and evaluated, coming up against transnational culture. This book provides an extensive and critical vision of border culture on the move, drawing on numerous examples worldwide and a growing international literature across border and cultural studies. It shows how border culture develops in the human imagination and manifests in human constructs of nation and state as well as in transnationalism. By analyzing this new and expanding cultural geography of border landscapes, the book shows the way to a fresh, broader dialogue. Exploring the nature and meaning of the intersection of border and culture, this book will be an essential read for students and researchers across border studies, geopolitics, geography, and cultural studies.

Local Responses to Mine Closure in South Africa Sethulego Matebesi, Lochner Marais, Verna Nel, 2024-02-12 This book investigates mine closure and local responses in South Africa, linking dependencies and social disruption. Mine closure presents a major challenge to the mining industry and government policymakers globally but particularly in the Global South. South Africa is experiencing notable numbers of mine closures, and this book explores the notion of social disruption, a concept often applied to describe the effects of mine growth on communities but often neglecting the impact of mine closures. The book begins with three theoretical chapters that discuss theory, closure cost frameworks, and policy development in South Africa. It uses evolutionary governance theory to show how mining creates dependencies and how mining growth often blinds communities and governments to the likelihood of closure. Too easily, mining goes ahead with no concern for the possibility or indeed inevitability of eventual closure and how mining communities will cope. These impacts are showcased through eight place-based case studies from across South Africa, one focusing on mine workers to demonstrate that mine closure causes significant social disruption. This book will be of interest to students and scholars researching the social impacts of mining and the extractive industries, social geography, and sustainable development, as well as policymakers and practitioners working with mine closure and social impact assessments.

Religion and Intersex Stephanie A. Budwey, 2022-08-25 This book considers the situation of intersex people who have faced erasure in the areas of

science law culture and theology due to the assumption that all humans are either female or male Centered in interviews conducted with German intersex Christians this book argues that moving from a paradigm of sexual dimorphism to sexual polymorphism will help promote the full humanity and flourishing of intersex people by creating a world where intersex individuals are no longer coerced and or forced to undergo non consensual medically unnecessary treatment no longer experience human rights violations because of their lack of legal protection no longer feel inhuman and Other due to epistemic injustice that stems from socio cultural norms and stereotypes are no longer told they are not made in God s image as a result of a sexually dimorphic understanding of Genesis 1 27 and no longer feel excluded and invisible in worship services that do not recognize them This combination of the practical and the spiritual allows for a reconsideration of the medical treatment and pastoral care that should be available to intersex people This book will be helpful to those in the disciplines of science law culture and theology particularly those in gender and theological studies and those already in and studying for lay and ordained ministry

Coviability of Social and Ecological Systems: Reconnecting Mankind to the Biosphere in an Era of Global Change

Olivier Barrière,Mohamed Behnassi,Gilbert David,Vincent Douzal,Mireille Fargette,Thérèse Libourel,Maud Loireau,Laurence Pascal,Catherine Prost,Voyner Ravena-Cañete,Frédérique Seyler,Serge Morand,2019-03-12 This book considers the principle of sustainable development which is currently facing a growing environmental crisis A new mode of thinking and positioning the ecological imperative is the major input of this volume The prism of co viability is not the economics of political agencies that carry the ideology of the dominant conventional economic schools but rather an opening of innovation perspectives through science This volume through its four parts more than 40 chapters and a hundred authors gives birth to a paradigm which crystallizes within a concept that will support in overcoming the ecological emergency deadlock

Higher Education Pathways Paul Ashwin,M. Case,2018-12-13 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues
