Univesity Of Limpopo Application Forms 2015:

Corrupted Jonathan D Jansen,2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions Why do some universities seem to be in a constant state of turmoil and dysfunction Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic namely graduation certificates for sale assets of these institutions Jansen argues that the problem won t be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly Practices and Perspectives of Teaching and Teacher Education in Africa

Boadu, Gideon,Odhiambo, George,Marandi, Pegah,2023-09-25 Teacher education is a known variable that impacts the quality of teaching and schooling yet while research on practices in teaching and teacher education abound in other contexts there seems to be no comprehensive reference work on teaching and teacher education in Africa With Africa and the diaspora boasting rich diverse political and educational contexts and practices this gap in knowledge requires that attention be focused on investigating issues that shape the pace course and direction of teaching and teacher education in these contexts Practices and Perspectives of Teaching and Teacher Education in Africa facilitates scholarly discussions among scholars and practitioners about practices innovations and future possibilities for educating the next generation of competent students and teachers in Africa Covering topics such as educational reforms equity career progression and curriculum development this major reference work is ideal for administrators industry professionals researchers academicians scholars practitioners instructors and students **Research Methods for Educational Leadership and Management** Musundire,

Austin,2025-05-13 Various research methods including action case study and experimental research can be tailored for educational leadership and management Different research designs data collection techniques and data analysis methods have differing strengths weaknesses and challenges As a result it is crucial to develop the skills and confidence needed to

conduct high quality research Developing a deeper understanding of how to conduct rigorous research may consequently foster more effective and innovative research leading to improved educational policies practices and outcomes Research Methods for Educational Leadership and Management illustrates how these methods can be effectively applied to address issues in educational leadership and management It promotes best practices in educational research by highlighting ethical considerations addressing common challenges and providing strategies for overcoming these obstacles Covering topics such as equity employment practices high performance culture and professional competencies this book is an excellent resource for educational leaders school managers school administrators policymakers researchers professionals scholars academicians and more

Sustainability of Southern African Ecosystems under Global Change Graham P. von Maltitz, Guy F.

Midgley, Jennifer Veitch, Christian Brümmer, Reimund P. Rötter, Finn A. Viehberg, Maik Veste, 2024-01-05 This open access book about the sustainability of marine and terrestrial ecosystems in southern Africa provides a synthesis of the research program Science Partnerships for the Adaptation to Complex Earth System Processes SPACES II 2018 2022 It addresses the scientific social and economic issues related to climate change its potential impacts on the various ecosystems adaptations and management interventions for enhancing systems resilience in Southern Africa It is written by numerous scientists from African states and Germany and summarizes the latest research findings which are of great relevance for a better understanding of climate change impacts adaptations and vulnerabilities as well as for developing management options and policy options to reduce the associated risks This is crucial considering that the projected African population increase is exceptional Furthermore climate change is assumed to hit southern Africa extremely hard with a significant increase in extreme events and the frequency of severe droughts heat waves and flooding Southern Africa hosts a high variety of ecosystems which belongs to important biodiversity hotspots for unique flora and fauna The surrounding oceans form in turn a bottle neck within the ocean s global thermohaline circulation act as a still poorly understood carbon sink and source and play an important role for fisheries as they are highly productive Considering these important aspects the book is an important interdisciplinary contribution to the scientific literature and will find a wide readership The book is aimed at students teachers and scientists in the fields of terrestrial and marine ecology environmental nature and landscape planning agriculture environmental and resource management biodiversity and nature conservation as well as scientists and representatives in specialised authorities and associations nature conservationists and policy makers of related disciplines

Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the

nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology
Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique
Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the
area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more
towards innovations in economic growth With regard to human capital development papers presented evidence that there
exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done
within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an
influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore
it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an
organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate
the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on
organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as
criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles
contribution reemphasised technology education and training as a means of digitising business and improving effectiveness
Target audience The target readership is academic researchers and business leaders who require access to the latest
developments in the fields of economics information management business education development studies social sciences
and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new
developments on existing policies and regulations for their review or amendment [Encyclopedia of Stateless Nations](#)
James B. Minahan, 2016-08-01 This book addresses the numerous national movements of ethnic groups around the world
seeking independence more self rule or autonomy movements that have proliferated exponentially in the 21st century In the
last 15 years globalization religious radicalization economic changes endangered cultures and languages cultural
suppression racial tensions and many other factors have stimulated the emergence of autonomy and independence
movements in every corner of the world even in areas formerly considered immune to self government demands such as
South America Researching the numerous ethnic groups seeking autonomy or independence worldwide previously required
referencing many specialized publications This book makes this difficult to find information available in a single volume
presented in a simple format accessible to everyone from high school readers to scholars in advanced studies programs The
book provides an extensive update to Greenwood's Encyclopedia of the Stateless Nations Ethnic and National Groups around
the World that was published more than a decade earlier Each ethnic group receives an alphabetically organized entry
containing information such as alternate names population figures flag or flags geography history culture and languages All
the information readers need to understand the motivating factors behind each movement and the current situation of each

ethnic group is presented in a compact summary Fact boxes at the beginning of each entry enable students to quickly access key information and consistent entry structure makes for easy cross cultural comparisons **Africa's Urban Youth** Amy S. Patterson, Tracy Kuperus, Megan Hershey, 2023-08-10 Making up 65 percent of Africa's population young people between the ages of 18 and 35 play a key role in politics yet they live in an environment of rapid urbanization high unemployment rates and poor state services Drawing from extensive fieldwork in Ghana Uganda and Tanzania this book investigates how Africa's urban youth cultivate a sense of citizenship in this challenging environment and what it means to them to be a good citizen In interviews and focus group discussions African youth activists and community leaders vividly explain how income religion and gender intertwine with their sense of citizenship and belonging Though Africa's urban youth face economic and political marginalization as well as generational tensions they craft a creative citizenship identity that is rooted in their relationships and obligations both to each other and the state Privileging above all the voice and agency of Africa's young people this is a vital systematic examination of youth and youth citizenship in urban environments across Africa **The Politics of**

Precarity Gediminas Lesutis, 2021-12-30 Based on critical theory and ethnographic research this book explores how intensifying geographies of extractive capitalism shape human lives and transformative politics in marginal areas of the global economy Engaging the work of Judith Butler Henri Lefebvre and Jacques Rancière with ethnographic research on social and political effects of mining induced dispossession in Mozambique in the book Lesutis theorises how precarity unfolds as a spatially constituted condition of everyday life given over to the violence of capital Going beyond labour relations or governance of life in liberal democracies that are typically explored in the literature on precarity the book shows how dispossessed people are subjected to structural symbolic and direct modalities of violence this simultaneously constitutes their suffering and ceaseless desire however implausible to be included into abstract space of extractivism As a result despite the multifarious violence that it engenders extractive capital accumulation is sustained even in the margins historically excluded from contingently lived imaginaries of a good life promised by capitalism Presenting this theorisation of precarity as a framework on and a critique of the contemporary politics of unliveability the book speaks to key debates about precarity dispossession resistance extractivism and development in several disciplines especially political geography IPE global politics and critical theory It will also be of interest to scholars in development studies critical political economy and African politics

Anthropology and Responsibility Melissa Demian, Mattia Fumanti, Christos Lynteris, 2023-03-31 This book explores the role and implications of responsibility for anthropology asking how responsibility is recognised and invoked in the world what relations it draws upon and how it comes to define notions of the person institutional practices ways of knowing and modes of evaluation The category of responsibility has a long genealogy within the discipline of anthropology and it surfaces in contemporary debates as well as in anthropologists' collaboration with other disciplines including when anthropology is applied in fields such as development medicine and humanitarian response As a category that unsettles challenges and

critically engages with political ethical and epistemological questions responsibility is central to anthropological theory ethnographic practice collaborative research and applied engagement With chapters focused on a variety of cultural contexts this volume considers how anthropology can contribute to a better understanding of responsibility including the responsibility of anthropology and the responsibility of anthropologists to specific others *Indigenous Language for Social Change Communication in the Global South* Tshepang Bright Molale, Abiodun Salawu, Mohammad Sahid Ullah, Enrique Uribe-Jongbloed, 2023-05-22 *Indigenous Language for Social Change Communication in the Global South* brings together voices from the margins to engage in dialogue about common social change issues in Latin America Africa and Asia This book argues that resistance and social movements expressed in music and songs and exchanged via radio remain fundamental to ensure that the linguistic and cultural diversity of the world progresses despite colonizing pressures Contributors present cases that explore how indigenous communities use mediums such as the radio to help support their language identity and expand their own social change Highlighting the centrality of music in the development of political discussions and language as a central part of collective identity contributors analyze how these mediums function as both a vessel and a link for information and cultural cohesion of those engaging in social change Scholars of communication sociology and development studies will find this book of particular interest **Nematology in South Africa: A View from the 21st Century** Hendrika Fourie, Vaughan W. Spaull, Robin K. Jones, Mieke S. Daneel, Dirk De Waele, 2017-02-28 This unique book contains not only a comprehensive up to date summary of the achievements made in all areas of Nematology in South Africa over more than half a century but it also combines this rather technical part with an insiders narrative of how Nematology started and developed It also demonstrates how the South African community of nematologists gradually adapted to major changes in agriculture These were due to a major political shift followed by socio economic changes and this in an often challenging natural environment At the same time this book is conceived as a useful source for young scientists to provide them with practical knowledge and critical insight in the field of Nematology The information given is based primarily on research conducted by nematologists in South Africa Most of this research was aimed at finding workable solutions for nematological problems confronted by both large scale commercial producers and smallholding farmers During a period when funding for scientific research is becoming increasingly scarce the future demand and quest for practical solutions by applied research will only increase **The Archaeology of Southern Africa** Peter Mitchell, 2024-06-06 Some of humanity s earliest ancestors lived in southern Africa and evidence from sites there has inspired key debates on human origins and the emergence of complex cognition Building on its rich rock art heritage archaeologists have developed theoretical work that continues to influence rock art studies worldwide with the relationship between archaeological and anthropological data central to understanding past hunter gatherer pastoralist and farmer communities alike New work on pre colonial states contests models that previously explained their emergence via external trade while the transformations wrought by European colonialism are

being rewritten to emphasise Indigenous agency feeding into efforts to decolonise the discipline itself Inhabited by humans longer than almost anywhere else and with an unusually varied complex past southern Africa thus has much to contribute to archaeology worldwide In this revised and updated edition Peter Mitchell provides a comprehensive and extensively illustrated synthesis of its archaeology over more than three million years **A History of African Popular Culture** Karin

Barber,2018-01-11 A journey through the history of African popular culture from the seventeenth century to the present day

Higher Education Pathways Paul Ashwin,M. Case,2018-12-13 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues Lithic Technological Organization and Paleoenvironmental Change Erick

Robinson,Frédéric Sellet,2017-11-06 The objective of this edited volume is to bring together a diverse set of analyses to document how small scale societies responded to paleoenvironmental change based on the evidence of their lithic technologies The contributions bring together an international forum for interpreting changes in technological organization embracing a wide range of time periods geographic regions and methodological approaches As technology brings more refined information on ancient climates the research on spatial and temporal variability of paleoenvironmental changes In turn this has also broadened considerations of the many ways that prehistoric hunter gatherers may have responded to fluctuations in resource bases From an archaeological perspective stone tools and their associated debitage provide clues to understanding these past choices and decisions and help to further the investigation into how variable human responses may have been Despite significant advances in the theory and methodology of lithic technological analysis there have been few attempts to link these developments to paleoenvironmental research on a global scale New South African Review 6

Devan Pillay,Gilbert M Khadiagala,Roger Southall,Sarah Mosoetsa,Samuel Kariuki,2018-01-29 Wide ranging essays demonstrate how the consequences of inequality extend throughout society and the political economy Despite the transition from apartheid to democracy South Africa is the most unequal country in the world Its extremes of wealth and poverty undermine intensifying struggles for a better life for all The wide ranging essays in this sixth volume of the New South African Review demonstrate how the consequences of inequality extend throughout society and the political economy

crippling the quest for social justice polarising the politics skewing economic outcomes and bringing devastating environmental consequences in their wake Contributors survey the extent and consequences of inequality across fields as diverse as education disability agrarian reform nuclear geography and small towns and tackle some of the most difficult social political and economic issues How has the quest for greater equality affected progressive political discourse How has inequality reproduced itself despite best intentions in social policy to the detriment of the poor and the historically disadvantaged How have shifts in mining and the financialisation of the economy reshaped the contours of inequality How does inequality reach into the daily social life of South Africans and shape the way in which they interact How does the extent and shape of inequality in South Africa compare with that of other major countries of the global South which themselves are notorious for their extremes of wealth and poverty South African extremes of inequality reflect increasing inequality globally and The Crisis of Inequality will speak to all those general readers policy makers researchers and students who are demanding a more equal world
