Geographies of Economies Roger Lee, Jane Wills, 2014-05-01 Setting out to explore the intersections of economy and geography this book brings together contributions from the world's top economic geographers. Over forty contributors draw upon contemporary theory and experience to explore the cultural and social constitution of economic geographies, processes of globalisation and new forms of political regulation and practice. Although focusing upon new economic geography, the book also illustrates the many connections with previous scholarship as scholars seek to reconstruct the traditions of political economy to understand the contemporary world. Highlighting and illustrating contemporary developments, the book opens up discussion about the implications of the complex geographies involved. In pointing to new directions of research and debate, this major statement in the state of the art economic geography demonstrates the central relevance of economic geography not only in understanding the trajectories of change but in proposing alternatives.

Marchand, Anne Sisson Runyan, 2010-09-13 In this new edition of this best-selling text, interdisciplinary feminist experts from around the world provide new analyses of the ongoing relationship between gender and neoliberal globalization under the new imperialism in the post 9/11 context. Divided into Sightings, Sites and Resistances, this book examines the disciplining politics of race, sexuality and modernity under securitized globalization, including case studies on domestic workers in Hong Kong, heteronormative development policies and responses to the crisis of social reproduction and colonizing responses to AIDS in sub-Saharan Africa, migration, human rights and citizenship, including studies on remittances, the emergence of neoliberal subjectivities among rural Mexican women, Filipina migrant workers and women's labor organizing in the Middle East and North Africa, feminist resistance incorporating the latest scholarship on transnational feminism and feminist critical globalization movement activism, including case studies on men's violence on the Mexico-US border, pan-indigenous women's movements and cyberfeminism. Providing a coherent and challenging approach to the issues of gender and the processes of globalization in the new millennium, this important text will be of interest to students and scholars of IPE, international relations, economics, development and gender studies.

The Political Economy Reader Naazneen H. Barma, Steven K. Vogel, 2021-08-29 The Political Economy Reader advocates a particular approach to the study of political economy: the market-institutional perspective, which emphasizes the ways in which markets are embedded in political and social institutions. This perspective offers a compelling alternative to the market-liberal view, which advocates freer markets and less government intervention in the economy, as if states and markets were naturally at odds with each other. The reader embraces a truly interdisciplinary approach to the study of political economy, with extensive coverage from sociology, economics, history and political science. It includes some of the most important classical and contemporary theoretical perspectives on political economy. And it engages some of the most topical debates in political

economy today such as climate change the global financial crisis inequality the digital platform economy and the COVID 19 pandemic For political economy courses at a variety of levels and from a range of disciplines the reader is also of interest to scholars and citizens wanting perspective on the intersection of economics politics and society New to the Second Edition More than 20 new readings included by such notables as Elinor Ostrom E J Hobsbawm Dani Rodrik Amartya Sen Thomas Piketty and Mariana Mazzucato among many others Fully updated introductions to the book and each thematic chapter of readings Coverage of key emerging debates including climate change the financial crisis inequality the digital platform economy and COVID 19
