can be embedded through leadership and cultural change with the aim of developing an account of the virtues appropriate to bankers and banking

The Story of White Hall Centre Pete McDonald, 2018-05-01

The Way Back F. H. Buckley, 2017-11-07

The promise of America is that with ambition and hard work anyone can rise to the top But now the promise has been broken and we've become an aristocracy where rich parents raise rich kids and poor parents raise poor kids We've been told that the changes are structural that there's nothing we can do about this But that doesn't explain why other First World countries are beating us hands down on the issue of mobility What's different about America is our politics An ostensibly progressive New Class of comfortably rich professionals media leaders and academics has shaped the contours of American politics and given us a country of fixed economic classes It is supported by the poorest of Americans who have little chance to rise an alliance of both ends against the middle that recalls the Red Tories of parliamentary countries Because they support an aristocracy the members of the New Class are Tories and because of their feigned concern for the poor they are Red Tories The Way Back explains the revolution in American politics where political insurgents have challenged the complacent establishment of both parties and shows how we can restore the promise of economic mobility and equality by pursuing socialist ends through capitalist means

Failure of Corporate School Reform Kenneth J. Saltman, 2015-11-17 Corporate school reforms especially privatization union busting and high stakes testing have been hailed as the last best hope for public education Yet as Kenneth Saltman powerfully argues in this new book corporate school reforms have decisively failed to deliver on what their proponents have promised for two decades higher test scores and lower costs As Saltman illustrates the failures of corporate school reform are far greater and more destructive than they seem Left unchecked corporate school reform fails to challenge and in fact worsens the most pressing problems facing public schooling including radical funding inequalities racial segregation and anti intellectualism But it is not too late for change Against both corporate school reformers and its liberal critics this book argues for the expansion of democratic pedagogies and a new common school movement that will lead to broader social renewal

We Belong Here Shani Adia Evans, 2025-01-16 A landmark study that shows how Black residents experience and respond to the rapid transformation of historically Black places Although Portland Oregon is sometimes called America s whitest city Black residents who grew up in the neighborhoods of northeast Portland have made it their own The district of Albina also called Northeast was their haven and a hub of Black community life But between 1990 and 2010 Albina changed dramatically it became majority white In *We Belong Here* sociologist Shani Adia Evans offers an intimate look at gentrification from the inside documenting the reactions of the residents of Albina as the racial demographics of their neighborhood shift As white culture becomes centered in Northeast Black residents recount their experiences with what Evans refers to as white watching the questioning look on the faces of white people they encounter which conveys an exclusionary message What are you doing here This Evans shows is a prime example of what she calls white spacemaking the establishment of white space spaces in which whiteness is assumed to be the norm in formerly non white neighborhoods While gentrification typically describes socioeconomic changes that may have racial implications white spacemaking allows us to understand racism as a primary mechanism of neighborhood change *We Belong Here* illuminates why gentrification and white spacemaking should be examined as intersecting but not interchangeable processes of neighborhood change

The Freedom of Peaceful Action Stuart K. Hayashi, 2014-04-23 *The Freedom of Peaceful Action* is the first installment of the trilogy *The Nature of Liberty* which makes an ethical philosophic case for individual liberty and the free market against calls for greater government regulation and control The trilogy makes a purely secular and nonreligious ethical case for the individual s rights to life liberty private property and the pursuit of happiness as championed by the U S Founding Fathers Inspired by such philosophic defenders of free enterprise as John Locke Herbert Spencer and Ayn Rand *The Nature of Liberty* shows that such individual rights are not imaginary or simply assertions but are institutions of great practical value making prosperity and happiness possible to the degree that society recognizes them The trilogy

demonstrates the beneficence of the individual rights approach by citing important findings in the emerging science of evolutionary psychology Although the conclusions of evolutionary psychology have been long considered to be at odds with the philosophies of individual liberty and free markets The Nature of Liberty presents a reconciliation that reveals their ultimate compatibility as various important findings of evolutionary psychology being logically applied confirm much of what philosophic defenders of liberty have been saying for centuries Moreover proceeding from the viewpoint of Rand this work argues that the structure of society most conducive to practical human well being is commensurately the most moral and humane approach as well The trilogy s first installment The Freedom of Peaceful Action focuses on the secular philosophic foundation for a society based on individual rights Starting from a defense of the efficacy of observational reason against criticisms from Immanuel Kant and Karl Popper it demonstrates how a philosophic position of individual liberty and free markets is the logical result of the consistent application of human reason to observing human nature This installment demonstrates that any political system that wishes for its citizens to thrive must take human nature into account and that an accounting of human nature reveals that a system of maximum liberty and property protection is the one most conducive to peace and human well being
