Urban Decay Book Of Shadows:

The Ecology of American Noir Katrina Younes, 2025-04-07 This volume investigates the relationship between the conventions of noir fiction and film and its sub types in relation to environmental crises Dr Younes addresses questions that not only allow readers to re read early hardboiled literature and neo noir films but also help identify a new sub genre of noir and develop an ecocritical methodology eco noir This text traces the development of strategies of mapping urban blight and environmental deterioration in classic hardboiled fiction of the 1940s neo noir films of the 1970s and eco noir texts of the post millennial period Introducing the concept of eco noir as both a sub genre and fictional form as well as a methodology the volume develops a new way of understanding the relationship between noir and climate fiction texts Through a close reading of hardboiled neo noir and eco noir texts including those by Dashiell Hammett Raymond Chandler Robert Towne Kim Stanley Robinson and Jeff VanderMeer it asks and addresses the question how does each sub genre of noir map the noir atmosphere of the private investigator s natural setting in terms of environmental toxicity *The Ecology of American Noir* contributes to critical conversations in both noir and ecocritical scholarship making clear how a new understanding of noir as defined through environmental and atmospheric conditions invites readers viewers and scholars of the genre to generate meaningful dialogues about our decaying and deteriorating environment
