Adjutant-General's Office, 1925 *US Special Operation Forces Handbook Volume 3 US Army Special Operation Forces: Strategic Information and Materials* IBP USA, *A Shot in the Dark: A History of the U.S. Army Asymmetric Warfare Group* Paul J. Cook, 2024-05-14 This book presents the U S Army Asymmetric Warfare Group AWG as an example of successful change by the Army in wartime It argues that creating the AWG required senior leaders to create a vision differing from the Army's self conceptualization change bureaucratic processes to turn the vision into an actual unit and then place the new unit in the hands of uniquely qualified leaders to build and sustain it In doing this it considers the forces influencing change within the

Army and argues the two most significant are its self conceptualization and institutional bureaucracy The work explores three major subject areas that provide historical context The first is the Army s institutional history from the early 1950s through 2001 This period begins with the Army seeking to validate its place in America s national security strategy and ends with the Army trying to chart a path into the post Cold War future The Army s history is largely one of asymmetric warfare The work thus examines several campaigns that offered lessons for subsequent wars Some lessons the Army took to heart others it ignored As the AWG was a direct outgrowth of the failures and frustrations the Army experienced in Afghanistan and Iraq the book examines these campaigns and identifies the specific problems that led senior Army leaders to create the AWG Finally the work chronicles the AWG s creation in 2006 growth and re assignment from the Army staff to a fully fledged organization subordinate to the U S Army Training and Doctrine Command in 2011 to its deactivation This action resulted not from the unit s failure to adapt to a post insurgency Army focusing on modernization Rather it resulted from the Army failing to realize that while the AWG was a product of counterinsurgency it provided the capability to support the Army during a period of great strategic and institutional uncertainty *Professional Journal of the United States Army* ,2016

How the Army Runs: A Senior Leader Reference Handbook, 2011-2012 U.S. Army War College,2013-05-20 The U S Army War College USAWC is proud to present the 28th Edition of How the Army Runs A Senior Leader Reference Handbook 2011 2012 Publication of this text at this time when the Army has been at war for almost a decade has almost completed restructuring of its operating force and is addressing the structure of the generating force as well as completing formidable base closure and restationing actions gives credence to the enduring truth that in order to be successful the Army must sustain and improve itself while it is fully committed to the Nation s bidding The systems and processes documented and explained in this work are designed to do just that This text was prepared under the direction of the faculty of the Department of Command Leadership and Management It is intended to be used in an academic environment during the study of the systems and processes used to develop and sustain trained and ready combat forces to be used by the Combatant Commanders **Improvised Explosive Devices** James Revill,2016-07-15 This book begins with an account of the evolution of improvised explosive devices using a number of micro case studies to explore how and why actors have initiated IED campaigns how new and old technologies and expertise have been exploited and how ethical barriers to IED development and deployment have been dealt with It proceeds to bring the evidence from the case studies together to identify themes and

trends in IED development before looking at what can realistically be done to mitigate the threat of IEDs in the new wars of the twenty first century The book suggests that the advance and availability of a combination of technological factors in conjunction with changes in the nature of contemporary conflicts have led to the emergence of IEDs as the paradigmatic weapons of new wars However their prevalence in contemporary and future conflicts is not inevitable but rather depends on the willingness of multiple sets of actors at different levels to build a web of preventative measures to mitigate if not eradicate IED development and deployment **The Engineer** ,2009 **Review of Current Military Literature** ,2010
