those who knew him and fought alongside him Most people think of snipers as shooters perched in urban hides dealing out death unseen from a considerable distance But this description barely scratches the surface Special operations snipers are men with stacked skill sets who have the ability to turn the tide of battles even when they aren't pulling the trigger Snipers have played an outsized role in the War on Terror that has earned them the Medal of Honor Navy Cross and countless other honors These are the most experienced warriors on the battlefield oftentimes the units best assaulters with years of door kicking under their belt These are the men who run ops in small teams across borders or dress like locals and pull off high risk vehicle reconnaissance and singleton missions in non permissive environments Chris Martin's *Modern American Snipers* tells the inside story of some of the most heroic patriots in recent American history by the friends and colleagues who knew them best including The Legend Chris Kyle SEAL Team 3 Chief and the most lethal sniper in U.S. military history The Reaper Nick Irving the first African American to serve as a sniper in the 3rd Ranger Battalion and its deadliest with 33 confirmed kills Robert Horrigan Delta sniper who played a critical role in Operation Anaconda Don Hollenbaugh Delta Operator who earned the Distinguished Service Cross while embedded with a Marine platoon in the First Battle of Fallujah And many more

Special Ops: Snipers Mary-Lane Kamberg, 2014-12-15 Snipers skilled cautious and keen eyed shooters who hide and wait for their assigned targets to appear For a sniper staying out of view whether within some bushes or peeking over a rooftop is job one But snipers don't stay hidden for readers of this engrossing book which pulls back the cover and the camouflage providing a detailed and inside look at the training the tools and the history of how a select few get to be top guns in the U.S. military

Total Focus Brandon Webb, John David Mann, 2017-08-15 What do you do at work when a hundred crises seem to be happening at the same time Do you pick just one priority or try to put out every fire How can you stay composed figure out what really matters and act decisively When former U S Navy SEAL sniper Brandon Webb transitioned to civilian life he struggled to get his first startup business off the ground He raised millions for his new venture only to lose it all as problems spiraled out of his control In the wake of that failure Webb realized that successful entrepreneurs need a skill he had already mastered total focus SEAL snipers define it as the ability to filter out noise and chaos so you can make life or death decisions under the extreme conditions of combat If he could maintain total focus while staring through crosshairs at a man who might or might not be an Al Qaeda terrorist surely he could do the same in the business world So Webb started over applying total focus to a new startup a media company called Hurricane Group His approach was so effective that in just five years Hurricane grew to have a staff of over fifty an audience in the tens of millions and a valuation of more than 100 million In this book Webb teaches us to make better decisions under extreme pressure by emulating the habits of his fellow warriors as well as other skills he learned on the job and from great friends and business leaders like Solomon Choi of 16 Handles Matt Meeker of BarkBox and Betsy Morgan of the Huffington Post and TheBlaze For instance you ll discover The difference between total focus and tunnel vision is developing total situational awareness the ability to spot opportunities and threats without getting distracted from your goal You can overcome indecisiveness and hesitancy by accepting violence of action a decision to move forward with an imperfect plan knowing that even the best laid plans go wrong Entrepreneurs must learn to embrace the suck refusing to quit when the going gets brutal and recognizing that unexpected challenges may reveal your best shot at success By following the tactics and wisdom of a generation of legendary snipers and business leaders you ll find the clarity of mind you need to accomplish your own mission whatever it takes **Mastering Fear** Brandon Webb, John David Mann, 2018-08-07 From New York Times bestselling author and former Navy SEAL Brandon Webb comes a simple yet powerful five step guide to transforming your life by making your fears work for you instead of against you Brandon Webb has run life threatening missions in the world s worst trouble spots whether that meant jumping out of airplanes taking down hostile ships on the open sea or rolling prisoners in the dead of night in the mountains of Afghanistan As a Navy SEAL he learned how to manage the natural impulse to panic in the face of terrifying situations As media CEO and national television commentator he has learned how to apply those same skills in civilian life Drawing on his experiences in combat and business along with colorful anecdotes from his vast network of super achiever friends from astronauts to billionaires Webb shows how people from all walks of life can stretch and transcend their boundaries and learn to use their fears as fuel to

achieve more than they ever thought possible Fear can be a set of manacles holding you prisoner writes Webb Or it can be a slingshot catapulting you on to greatness The key says Webb is not to fight fear or try to beat it back but to embrace and harness it In the process rather than being your adversary your fear becomes a secret weapon that allows you to triumph in even the most adverse situations In Mastering Fear Webb and his bestselling coauthor John David Mann break this transformation down into five practical steps creating a must read manual for anyone looking for greater courage and mastery in their lives

The 21st Century Sniper Brandon Webb, 2010-09-15 Former Navy SEAL and military sniper Brandon Webb reveals the tips and basic training necessary to become an efficient sniper Details on advanced sniper training for maritime helicopter and urban sniper operations Also touches on the latest research development testing and evaluation of sniper weapons systems and optics From trajectories and wind speed to camouflage and best vantage points and targets
