Social Media in Northern Chile Nell Haynes, 2016-06-06 Based on 15 months of ethnographic research in the city of Alto Hospicio in northern Chile this book describes how the residents use social media and the consequences of this use in their daily lives Nell Haynes argues that social media is a place where Alto Hospicio's residents or Hospiceos express their feelings of marginalisation that result from living in city far from the national capital and with a notoriously low quality of life compared to other urban areas in Chile In actively distancing themselves from residents in cities such as Santiago Hospiceos identify as marginalised citizens and express a new kind of social norm Yet Haynes finds that by contrasting their own lived experiences with those of people in metropolitan areas Hospiceos are strengthening their own sense of community and the sense of normativity that shapes their daily lives This exciting conclusion is illustrated by the range of social media posts about personal relationships politics and national citizenship particularly on Facebook Tinder Without Complications AMERICA BOOKS, 2024-04-01 In Tinder Without Complications Strategies for Conquest dive into an immersive guide that
