The Philosophy of Taxation and Public Finance Robert W. McGee, 2011-06-27 Most public finance books are texts which are aimed at undergraduate or graduate students They are overly technical in nature and appeal only to a narrow range of bureaucrats and academics Books on taxation are written for tax practitioners and usually emphasize either what the law is or how to maneuver through the labyrinth of tax law to minimize taxes for clients Philosophy books on taxation or public finance simply do not exist *The Philosophy of Taxation and Public Finance* is different It is written in nontechnical language and is aimed to appeal to a wide range of readers including practitioners academics and students in the fields of taxation public finance economics law philosophy and political science as well as general readers who are interested in learning why they are being taxed the way they are The author addresses the major issues and topics in taxation and public finance and injects them with philosophical insights He discusses questions such as What arguments have been used to justify taxation When is tax evasion unethical Are some taxes better than others What are the proper functions of government How much is enough Is the ability to pay concept valid When can punitive taxes be justified *Privatizing Governmental Functions* Deborah Ballati, 2001 Offers a discussion and analysis of the procurement process and its political setting strategies for contractors and financing issues This book includes chapters devoted to such areas as public housing correctional facilities waste disposal and more It is useful for attorneys contractors government officials consultants and scholars Public Productivity Handbook Marc Holzer, Seok-Hwan Lee, 2019-02-13 Anyone hoping to improve teamwork performance and budgeting training and evaluation programs in their organization should look no further Completely revised *Public Productivity Handbook* Second Edition defines the role of leadership dimensions of employee commitment and multiple employee organization based relationships for effective internal and external connections It s coverage of new and systematic management approaches and well defined measurement systems provides guidance on correct utilization of human resources that ensure improvements in productivity and performance The authors discuss such topics as citizen driven government and performance public sector values and productivity privatization and productivity barriers in the public sector The Political Economy Of Public Sector Reform And Privatization Ezra Suleiman, John Waterbury, 2019-07-09 This book suggests some of the ways in which levels of development shape public sector reform and privatization in developed and developing countries showing that conservative as well as socialist governments were committed to increasing the state s guiding role in the political economy Understanding and Assessing the Charter School Movement Joseph Murphy, Catherine Dunn Shiffman, 2002 Shows how charter schools have changed in the years since their development looks at their role in educational reform and provides background information and details for the future of chartering *Urban Financial*

Management James McMaster, 1991 This manual aims to present a broad coverage of urban finance and describe the techniques of urban financial analysis The manual is designed to provide only the core material for courses on urban financial management and should be supplemented with material relating to the specific conditions of the countries of the participants This manual is divided into four chapters Chapter one provides an overview of key issues in urban finance and introduces a framework for urban financial analysis chapter 2 focuses on revenues and addresses the questions of how and from where government authorities can mobilize the resources required to finance the provision of urban services and the development and maintenance of urban infrastructure chapter 3 examines expenditure analysis and addresses the question of how to spend more wisely and chapter 4 discusses private participation in the delivery of urban services forms of private sector involvement and the role of nongovernment organizations and community groups The report closes with a case study on private participation in public services and functions solid waste disposal in Malaysia

McGee, 2008-08-25 Topics in this comprehensive survey include bureaucracy corruption and tax compliance public finance in developing economies taxation in several former Soviet republics Eastern Europe and China taxation in the enlarged European Union tax harmonization vs tax competition and the philosophy of taxation and public finance The editor has assembled a stellar group of authorities to write about their areas of expertise

Privatizing Correctional Institutions Gary W. Bowman, 2023-04-14 With more than one million people behind bars the United States imprisons a larger share of its population than any other industrialized nation This has precipitated a serious overcrowding problem with federal and state prisons currently operating well beyond capacity Conventional efforts appear unable to cope with the increasing shortage of beds or with inadequate rehabilitation services A bold solution is required increasingly it is being seen to reside in the private sector This timely volume explores the issues of private versus public financing construction and management of medium and high security prisons Private prisons are not a new concept in the United States They have existed in several forms since the eighteenth century The opening chapters evaluate historical cases of prisons for profit examining the concerns of labor abuses of inmates and the source and resolution of disputes between private and public sectors These chapters argue that the experience gained through privatization does not justify current opposition from civil libertarians or labor unions Chapters dealing with the modern contracting out of complete management and limited services document the growing trend toward privatization and instances of public private partnership in prison industries The assembled evidence indicates clearly that privately run prisons have shown significant cost savings and good quality of provision for prisoners while still being profitable However the authors caution that these promising results must be reinforced by public safeguards in the contracting stage and monitoring to assure good service and security With the American prison system in disarray the public interest demands that government look beyond the public or private identity of those who wish to provide correctional services and focus instead on

who can provide the best services at a given cost It is essential to state that correctional services should attain several objectives and not merely cost minimization The analysis and recommendations presented here will aid in the task Privatizing Correctional Institutions will be of interest to law enforcement officials public policy analysts penologists and criminologists
