Encyclopedia of the Black Death Joseph P. Byrne, 2012-01-16 This encyclopedia provides 300 interdisciplinary cross referenced entries that document the effect of the plague on Western society across the four centuries of the second plague pandemic balancing medical history and

technical matters with historical cultural social and political factors Encyclopedia of the Black Death is the first A Z encyclopedia to cover the second plague pandemic balancing medical history and technical matters with historical cultural social and political factors and effects in Europe and the Islamic world from 1347 1770 It also bookends the period with entries on Biblical plagues and the Plague of Justinian as well as modern era material regarding related topics such as the work of Robert Koch and Louis Pasteur the Third Plague Pandemic of the mid 1800s and plague in the United States Unlike previous encyclopedic works about this subject that deal broadly with infectious disease and its social or historical contexts including the author s own this interdisciplinary work synthesizes much of the research on the plague and related medical history published in the last decade in accessible compellingly written entries Controversial subject areas such as whether plague was bubonic plague and the geographic source of plague are treated in a balanced and unbiased manner Six Days In The Dark Ferhat Akbaş ,2025-09-18 This is the story of seven different lives intersecting within the same subway carriage Mert from Turkey Eleanor from England Maria from Russia Olivia from South America Beatriz from Spain Marco from Italy and Sophie from France One morning the ground quaked The earth cracked The city tilted The sky fell silent And along with hundreds of others seven strangers found themselves in the same darkness They clung only to each other This is not just a story of a disaster but of being human Seven people born in different lands raised speaking different languages having lived different lives But that morning their pasts were left behind Because there are moments when No language matters no nationality is recognized Only the human is seen And what remains together is examined It is the story of lives from all over the world touching in the shadows of Istanbul A narrative where colors beliefs and paths intertwine A place where borders become meaningless and only existence remains It is not the earthquake itself but the upheaval within the human being that is essential here And that upheaval does not separate people it unites them Because what holds us together is not only the desire to live but our power to remain good And good people while passing through time and pain silently find a place in each other s hearts They share hope in the midst of darkness they approach each other not with words but with the silent language of their hearts Because true closeness is born not from words but from hearts leaning silently against each other

Istanbul's Beauty Hariche Djmila ,2025-01-12 She pretended to sip her hot coffee while contemplating her father s kind face the drooping eyebrows unable to hide his gray eyes that seemed to pierce her like lie detecting lasers focused on uncovering the truth If she met his gaze they would read all the secrets of her heart so she lowered her bangs and pretended to eat her delicious breakfast Red Star Over the Black Sea James H. Meyer,2023 N z m Hikmet is Turkey s best known poet and one of their most recognizable historical figures James H Meyer situates N zim s fascinating international life story within the context of his border crossing generation of Turkish communist contemporaries addressing changing attitudes in the 20th century toward borders and the people who cross them **Neslishah** Murat Bardakçı,2017 Twice a princess twice exiled Neslishah Sultan had an eventful life When she was born in Istanbul in 1921 cannons were fired in the four corners of

the Ottoman Empire commemorative coins were issued in her name and her birth was recorded in the official register of the palace. After all, she was an imperial princess and the granddaughter of Sultan Vahiddedin. But she was the last member of the imperial family to be accorded such honors. In 1922, Vahiddedin was deposed and exiled, replaced as caliph but not as sultan by his brother and Neslishah's other grandfather, Abd lmeceid. In 1924, Abd lmeceid was also removed from office and the entire imperial family, including three-year-old Neslishah, was sent into exile. Sixteen years later, on her marriage to Prince Abdel Moneim, the son of the last khedive of Egypt, she became a princess of the Egyptian royal family. And when in 1952 her husband was appointed regent for Egypt's infant king, she took her place at the peak of Egyptian society as the country's first lady until the abolition of the monarchy the following year. Exile followed once more this time from Egypt after the royal couple faced charges of treason. Eventually, Neslishah was allowed to return to the city of her birth where she died at the age of 91 in 2012. Based on original documents and extensive personal interviews, this account of one woman's extraordinary life is also the story of the end of two powerful dynasties thirty years apart.

DarkMarket Misha Glenny, 2011-09-20 Shortlisted for the Orwell Prize and the CWA Gold Dagger for Non Fiction Award. The benefits of living in a digital globalised society are enormous, so too are the dangers. The world has become a law enforcer's nightmare and every criminal's dream. We bank online, shop online, date, learn, work and live online. But have the institutions that keep us safe on the streets learned to protect us in the burgeoning digital world? Have we become complacent about our personal security, sharing our thoughts, beliefs, and the details of our daily lives with anyone who cares to relieve us of them? In this fascinating and compelling book, Misha Glenny, author of the international bestseller *McMafia*, explores the three fundamental threats facing us in the twenty-first century: cyber crime, cyber warfare, and cyber industrial espionage. Governments and the private sector are losing billions of dollars each year fighting an ever-morphing, often invisible and highly intelligent new breed of criminal: the hacker. Glenny has travelled and trawled the world, and by exploring the rise and fall of the criminal website *DarkMarket*, he has uncovered the most vivid, alarming, and illuminating stories. Whether JiLsi or Matrix, Iceman, Master Splynter, or Lord Cyric, whether Detective Sergeant Chris Dawson in Bolton or Agent Keith Mularski in Pittsburgh, Glenny has tracked down and interviewed all the players: the criminals, the geeks, the police, the security experts, and the victims, and he places everyone and everything in a rich brew of politics, economics, and history. The result is simply unputdownable. *DarkMarket* is authoritative and completely engrossing. It's a must-read for everyone who uses a computer: the essential crime book for our times.

Invasive Aquatic Species of Europe. Distribution, Impacts and Management Erkki Leppäkoski, Stephan Gollasch, Sergej Olenin, 2013-06-29. The global scale of alien species invasions is becoming more and more evident in the beginning of the new millennium. Though the problem of biological invasions became a rapidly growing research area, there are large gaps still both geographically and methodically to be filled in the near future. This book is the first attempt to provide an overall picture of aquatic species invasions in Europe. Its geographical scope stretches from Irish waters in the west to Volga River and the

Caspian Sea in the east and from Mediterranean in the south up to the Arctic coast of Europe. Not all parts of the continent could be equally covered as in some countries species invasions are not studied yet. The book tends to represent the array of all major European aquatic systems on the broadest geographical and ecological scope possible from fully saline seas, semi-enclosed brackish water bodies and coastal lagoons to freshwater lakes, major river systems and waterways. The key objectives include the present status and impacts caused by non-native aquatic species in European waters. Please note that lengthy species lists submitted for publication and additional information were put on the Internet as the electronic version of these tables benefits from computer-assisted search for data: <http://www.ku.lt/nemo/EuroAquaInvaders.htm>. Altogether more than 100 scientists from 24 countries have joined to synthesize the available information on bioinvasions. However, the book does not claim to be fully comprehensive.
