Xenophon And The Art Of Command:

Xenophon and the Art of Command Godfrey Hutchinson, 2000 The purpose of this study is to examine those aspects of command which are recurrent in Xenophon's writings and reflect those which he and obviously his contemporaries thought important for anyone undertaking the role of a commander Examples of good and bad practice abound and Xenophon's evaluations of them are highlighted The approach is thematic rather than chronological so that comparisons between sections of the text and themes can more easily be made As a result differing aspects of the same action are often explored across a range of themes so that the fourth century benchmark for a good command is clarified Introduction Xenophon's Anabasis or The Expedition of Cyrus Michael A. Flower, 2012-06-19 Xenophon's Anabasis or The Expedition of Cyrus is one of the most famous survival stories ever written and the most important autobiographical work to have survived from ancient Greece This book places the Anabasis in its historical and literary context and opens up for the reader different ways of interpreting its major themes **Towards a Hybrid, Flexible and Socially Engaged Higher Education** Michael E. Auer, Uriel R. Cukierman, Eduardo Vendrell Vidal, Edmundo Tovar Caro, 2024-02-25 We are currently witnessing a significant transformation in the development of education on all levels and especially in post secondary education To face these challenges higher education must find innovative and effective ways to respond in a proper way The pandemic period left us with profound changes in the way we teach and learn including the massive use of new means of communication such as videoconferencing and other technological tools Moreover the current explosion of artificial intelligence tools mainly used by students is challenging teaching practices maintained for centuries Scientifically based statements as well as excellent best practice examples are absolutely necessary The 26th International Conference on Interactive Collaborative Learning ICL2023 which will take place in Madrid Spain between 26th and 30th September 2023 will be the perfect place where to present and discuss current trends in Higher Education Since its beginning in 1998 this conference is devoted to new approaches in learning with a focus on collaborative learning in Higher Education Nowadays the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in Learning and Engineering Pedagogy In this way we try to bridge the gap between pure scientific research and the everyday work of educators Xenophon's Cyropaedia Deborah Levine Gera, 1993 Socrates his life ideas and techniques of argument is an indirect presence in the work and the Socratic tenor of several of the dialogues in it is the subject of one chapter The lovely Panthea the fairest woman in Asia is Xenophon's most colourful heroine and her story along with the dramatic tales of the eunuch Gadatas bereaved Gobyras and defeated Croesus are the focus of another section special attention is paid to the question of Xenophon's originality in fashioning these tales The symposia of the Cyropaedia with their intricate blend of Greek and Persian elements are also investigated at length **Greek and Roman Military Manuals** James T. Chlup, Conor Whately, 2020-09-07 This volume explores the enigmatic primary source known as the ancient military manual In particular

the volume explores the extent to which these diverse texts constitute a genre sometimes unsatisfactorily classified as technical literature and the degree to which they reflect the practice of warfare With contributions from a diverse group of scholars the chapters examine military manuals from early Archaic Greece to the Byzantine period covering a wide range of topics including readership siege warfare mercenaries defeat textual history and religion Coverage includes most of the major contemporary siege manual writers including Xenophon Frontinus Vegetius and Maurice Close examination of these texts serves to reveal the complex ways in which ancient Greeks Romans and Byzantines sought to understand better and impose order upon the seemingly irrational phenomenon known as war Providing insight into the multifaceted collection of texts that constituted military manuals this volume is a key resource for students and scholars of warfare and military literature in the classical and Byzantine periods

The Socratic Way of Life Thomas L. Pangle, 2024-05-31 The Socratic Way of Life is the first English language book length study of the philosopher Xenophon's masterwork In it Thomas L Pangle shows that Xenophon depicts more authentically than does Plato the true teachings and way of life of the citizen philosopher Socrates founder of political philosophy In the first part of the book Pangle analyzes Xenophon's defense of Socrates against the two charges of injustice upon which he was convicted by democratic Athens impiety and corruption of the youth In the second part Pangle analyzes Xenophon's account of how Socrates's life as a whole was just in the sense of helping through his teaching a wide range of people Socrates taught by never ceasing to raise and to progress in answering the fundamental and enduring civic questions what is pious and impious noble and ignoble just and unjust genuine statesmanship and genuine citizenship Inspired by Hegel's and Nietzsche's assessments of Xenophon as the true voice of Socrates The Socratic Way of Life establishes the Memorabilia as the groundwork of all subsequent political philosophy
