Transforming Theological Education:

Transforming Theological Education Perry Shaw, 2014-05-14 For several decades concern has been expressed about the need for greater integration and contextual significance in the curricular design of theological education. In addition, there has been a growing awareness of the role theological schools should play in strengthening the missional vision and practice of local churches. Since 2008 the Arab Baptist Theological Seminary in Lebanon has been engaged in an ongoing experiment in the design and implementation of an integrated and contextually driven curriculum. Drawing on lessons learned from this experience and from the wider discourse currently taking place in higher education, *Transforming Theological Education* provides theoretical foundations and practical principles for purposeful curriculum design as well as tools for integrated and contextually significant learning in the classroom.

Transforming Theological Education Perry Shaw, 2022 For several decades concern has been expressed about the need for greater integration and contextual significance in the curricular design of theological education. In addition, there has been a growing awareness of the role theological schools should play in strengthening the missional vision and practice of local churches. Drawing on Dr. Perry Shaw's experience as faculty member, educational engineer, and acting academic dean for Arab Baptist Theological Seminary, *Transforming Theological Education* provides theoretical foundations and practical principles for purposeful curriculum design as well as tools for facilitating integrated and contextually significant learning in the classroom. This updated second edition has been reorganized for thematic clarity and expanded to provide a stronger foundation for thinking theologically rather than just educationally about theological education. It also contains a wider range of curricular examples from innovative theological programs around the world along with practical advice for implementing change in change-resistant environments. This handbook continues to be a one-of-a-kind resource for theological educators and all those involved in Christian leadership training.

Education That Transforms Robert W. Ferris,John R. Lillis,Ralph E. Enlow, Jr.,2018-05-06 God clearly intends that lives of Christians and the life of the church should differ from those of the unredeemed The Christian and the church should be salt and light Preparing spiritual leaders who have the grace credibility and wisdom to effect such change demands more than transmission of knowledge Equipping for transformative ministry requires a divinely empowered and educationally intentional experience that leads to transformation in the lives of students Ministry Education that Transforms brings together theological insight and educational research in support of practical methods that align with transformative ends The authors experience with Global Associates for Transformational Education GATE workshops and the impact they have had with this approach to education formation testifies that this is not a mere call for change but a tried and tested methodology crucial to theological education *Challenging Tradition* Perry Shaw,Havilah Dharamraj,2018-03-31 The surge of

theological education in the rapidly growing church of the Majority World has highlighted the inadequacy of traditional Western methods of thinking and learning to fully accomplish the task at hand. The limitations of current theological education are embodied in the formation and assessment of the master's or doctoral dissertation processes that follow a linear empiricist tradition developed in the West and exported to the Majority World. Challenging Tradition: Innovation in Advanced Theological Studies highlights the need for these traditions to be reconsidered in every context throughout the world. Drs Shaw and Dharamraj with their team of contributors present innovations in research and documentation that demonstrate how we may better prepare theological leadership through means that are contextually relevant and locally meaningful.
