**Transparent** Cris Beam, 2007 See **The Remarkable Rise of Transgender Rights** Jami Kathleen Taylor, Donald P. Haider-Markel, Daniel Clay Lewis, 2018-10-17 While medical identification and treatment of gender dysphoria have existed for decades the development of transgender as a collective political identity is a recent construct Over the past twenty five years the transgender movement has gained statutory nondiscrimination protections at the state and local levels hate crimes protections in a number of states inclusion in a federal law against hate crimes legal victories in the courts and increasingly favorable policies in bureaucracies at all levels It has achieved these victories despite the relatively small number of trans people and despite the widespread discrimination poverty and violence experienced by many in the transgender community This is a remarkable achievement in a political system where public policy often favors those with important resources that the transgender community lacks access money and voters *The Remarkable Rise of Transgender Rights* explains the growth of the transgender rights movement despite its marginalized status within the current political opportunity structure *The Lives of Transgender People* Brett Genny Beemyn, Susan Rankin, 2011-11-15 Responding to a critical need for greater perspectives on transgender life in the United States Genny Beemyn and Susan Sue Rankin apply their extensive expertise to a groundbreaking survey one of the largest ever conducted in the U S on gender development and identity making among transsexual women transsexual men crossdressers and genderqueer individuals With nearly 3 500 participants the survey is remarkably diverse and with more than 400 follow up interviews the data offers limitless opportunities for research and interpretation Beemyn and Rankin track the formation of gender identity across individuals and groups beginning in childhood and marking the touchstones that led participants to identify as transgender They explore when and how participants noted a feeling of difference because of their gender the issues that caused them to feel uncertain about their gender identities the factors that encouraged them to embrace a transgender identity and the steps they have taken to meet other transgender individuals Beemyn and Rankin s findings expose the kinds of discrimination and harassment experienced by participants in the U S and the psychological toll of living in secrecy and fear They discover that despite increasing recognition by the public of transgender individuals and a growing rights movement these populations continue to face bias violence and social and economic disenfranchisement Grounded in empirical data yet rich with human testimony *The Lives of Transgender People* adds uncommon depth to the literature on this subject and introduces fresh pathways for future research *The Transgender Child* Stephanie Brill, Rachel Pepper, 2008-06-03 This comprehensive first of its kind guidebook explores the unique challenges that thousands of families face every day raising their children in every city and state Through extensive research and interviews as well as years of experience working in the field the authors cover gender variance from birth through college What do you do when your toddler daughter s first sentence is that she s a boy What will happen when your preschool son insists on wearing a dress to school Is this ever just a phase How can you explain this to
