real face on the issue of homelessness especially for children Most people do not realize that children are among the thousands that are homeless and are the fastest growing segment of the homeless population The public tends to think about the bum on the corner with the cardboard sign or those sleeping under the bridges who accost them for a handout They do not realize that homelessness has an enormous and negative impact on growth development and learning for children This is an issue that affects schools communities and society at large Through qualitative observations in a one room classroom in a homeless shelter and in classrooms of an elementary school located in a subsidized housing project the development and use of language among homeless children classroom interactions between students and teachers and information regarding the effects of homelessness on children are closely examined This book re educates teachers educators and the general public in order to spur a new more accurate mindset about the reality and consequences of homelessness The work s larger purpose is to bring about compassionate implementation of the solutions necessary to eradicate this problem *The Book Review*
