populations The volume also includes new chapters on ethics in wildlife science and conservation conflict resolution and management and land reclamation A standard text in a variety of courses the Techniques Manual as it is commonly called covers every aspect of modern wildlife management and provides practical information for applying the hundreds of methods described in its pages This deft and thorough update ensures that The Wildlife Techniques Manual will remain an indispensable resource one that professionals and students in wildlife biology conservation and management simply cannot do without

The Cluster Organization Anna Maria Lis, Adrian Lis, 2021-02-22 Cluster organizations are becoming more and more popular both in developing and developed countries Considering the development of cluster policy and the related dynamic growth of cluster initiatives in the world the lack of sufficient knowledge on the development of cooperation in cluster organizations inhibits their development and in many cases causes their complete disintegration The book provides new important elements to the current system of knowledge filling in cognitive and research gaps in the scientific literature on problems related to cooperation in cluster organizations The most valuable features for the reader concern the epistemological methodological and application aspects The new element includes a theoretical concept which refers to the trajectory of development of cooperative relationships in cluster organizations that facilitates the understanding and explanation of mechanisms responsible for cooperation in such organizations The concept also has great practical advantages especially for people implementing the idea of clustering coordinators facilitators and members of cluster organizations as well as politicians and public authorities are responsible for shaping and implementing the cluster policy It will be of value to researchers academics and students in fields with an interest in organizational studies management of innovation and technology strategic management industrial economics and economic geography

Fire in California's Ecosystems Jan W. van Wagtendonk, 2018-06-08
Fire in California's Ecosystems describes fire in detail both as an integral natural process in the California landscape and as a growing threat to urban and suburban developments in the state. Written by many of the foremost authorities on the subject, this comprehensive volume is an ideal authoritative reference tool and the foremost synthesis of knowledge on the science, ecology, and management of fire in California. Part One introduces the basics of fire ecology, including overviews of historical fires, vegetation, climate, weather, fire as a physical and ecological process, and fire regimes, and reviews the interactions between fire and the physical plant and animal components of the environment. Part Two explores the history and ecology of fire in each of California's nine bioregions. Part Three examines fire management in California during Native American and post-Euro American settlement and also current issues related to fire policy, such as fuel management, watershed management, air quality, invasive plant species at risk, species, climate change, social dynamics, and the future of fire management. This edition includes critical scientific and management updates and four new chapters on fire, weather, fire regimes, climate change, and social dynamics.

Program Evaluation and Performance Measurement James C. McDavid, Irene Huse, Laura R. L. Hawthorn, 2018-10-16
Program Evaluation and Performance Measurement offers a conceptual and practical introduction to program evaluation and performance measurement for public and non-profit organizations. James C. McDavid, Irene Huse, and Laura R. L. Hawthorn discuss topics in a detailed fashion, making it a useful guide for practitioners who are constructing and implementing performance measurement systems, as well as for students. Woven into the chapters is the performance management cycle in organizations, which includes strategic planning and resource allocation, program and policy design, implementation and management, and the assessment and reporting of results. The Third Edition has been revised to highlight and integrate the current economic, political, and socio-demographic context within which evaluators are expected to work and includes new exemplars, including the evaluation of body-worn police.

cameras The Mechanics of Securitization Suleman Baig, Moorad Choudhry, 2013-01-09 A step by step guide to implementing and closing securitization transactions Securitization is still in wide use despite the reduction in transactions The reality is that investors and institutions continue to use this vehicle for raising funds and the demand for their use will continue to rise as the world s capital needs increase The Mechanics of Securitization specifically analyzes and describes the process by which a bank successfully implements and closes a securitization transaction in the post subprime era This book begins with an introduction to asset backed securities and takes you through the historical impact of these transactions including the implications of the recent credit crisis and how the market has changed Discusses in great detail rating agency reviews liaising with third parties marketing the deals and securing investors Reviews due diligence and cash flow analysis techniques Examines credit and cash considerations as well as how to list and close deals Describes the process by which a bank will structure and implement the deal and how the process is project managed and tested across internal bank departments While securitization transactions have been taking place for over twenty five years there is still a lack of information on exactly how they are processed successfully This book will put you in a better position to understand how it all happens and show you how to effectively implement an ABS transaction yourself
