Transcending Racial Barriers Toward A Mutual Obligations Approach:

Transcending Racial Barriers Michael O. Emerson, George Yancey, 2010-12-21 Despite recent progress against racial inequalities American society continues to produce attitudes and outcomes that reinforce the racial divide In *Transcending Racial Barriers* Michael Emerson and George Yancey offer a fresh perspective on how to combat racial division They document the historical move from white supremacy to institutional racism then look at modern efforts to overcome the racialized nature of our society The authors argue that both conservative and progressive approaches have failed as they continually fall victim to forces of ethnocentrism and group interest They then explore group interest and possible ways to account for the perspectives of both majority and minority group members They look to multiracial congregations multiracial families the military and sports teams all situations in which group interests have been overcome before In each context they find the development of a core set of values that binds together different racial groups along with the flexibility to express racially based cultural uniqueness that does not conflict with this critical core *Transcending Racial Barriers* offers what is at once a balanced approach towards dealing with racial alienation and a bold step forward in the debate about the steps necessary to overcome present day racism

Contested Issues in Student Affairs Peter M. Magolda, Marcia B. Baxter Magolda, 2023-07-03 What is your level of understanding of the many moral ideological and political issues that student affairs educators regularly encounter What is your personal responsibility to addressing these issues What are the rationales behind your decisions What are the theoretical perspectives you might choose and why How do your responses compare with those of colleagues Contested Issues in Student Affairs augments traditional introductory handbooks that focus on functional areas e g residence life career services and organizational issues It fills a void by addressing the social educational and moral concepts and concerns of student affairs work that transcend content areas and administrative units such as the tensions between theory and practice academic affairs and student affairs risk taking and failure and such as issues of race ethnicity sexual orientation and spirituality It places learning and social justice at the epicenter of student affairs practice The book addresses these issues by asking 24 critical and contentious questions that go to the heart of contemporary educational practice Intended equally for future student affairs educators in graduate preparation programs and as reading for professional development workshops it is designed to stimulate reflection and prompt readers to clarify their own thinking and practice as they confront the complexities of higher education Student affairs faculty administrators and graduate students here situate these 24 questions historically in the professional literature present background information and context define key terms summarize the diverse ideological and theoretical responses to the questions make explicit their own perspectives and responses discuss their political implications and set them in the context of the changing

nature of student affairs work Each chapter is followed by a response that offers additional perspectives and complications reminding readers of the ambiguity and complexity of many situations Each chapter concludes with a brief annotated bibliography of seminal works that offer additional information on the topic as well as with a URL to a moderated blog site that encourages further conversation on each topic and allows readers to teach and learn from each other and interact with colleagues beyond their immediate campus The website invites readers to post blogs respond to each other and upload relevant resources The book aims to serve as a conversation starter to engage professionals in on going dialogue about these complex and enduring challenges

Short ContentsThe 24 questions are organized into four units

I The Philosophical Foundations of Student Affairs in Higher Education explores the implications and complications of student affair educators placing learning at the epicenter of their professional work

II The Challenges of Promoting Learning and Development explores the challenges associated with learning centered practice

III Achieving Inclusive and Equitable Learning Environments addresses crafting learning environments that include students whose needs are often labeled special or students and or student subcultures that are often marginalized and encouraged to adapt to normalizing expectations

Confronting Racial Injustice Gerald Hiestand, Joel Lawrence, 2022-11-30 One of the greatest crises facing the church is the crisis of racial injustice that has so long marred the body of Christ in America Evangelicals have traditionally had a set of biblical theological and cultural tools we have used for dealing with questions about race the necessity of personal responsibility the possibility of heart renewal through faith in Jesus the transformative impact of interpersonal relationships and the bedrock conviction that every human being is made in the image of God and is thus of equal worth and dignity But in the world after 2020 the evangelical church must now recognize that our theological playbook has been ineffective in rooting out racism from the church and in confronting our own complicity in racial injustice We must now ask What other theological convictions are required of us as we consider the image bearing humanity of George Floyd Breonna Taylor Ahmaud Arbery and many others

Confronting Racial Injustice explores theological vistas to aid the church in our pursuit of racial justice

Faith, Hope, Love, and Justice Anselm K. Min, 2018-03-28 Faith hope and love traditionally called theological virtues are central to Christianity This book renews faith hope and love in the context of the many contemporary challenges in many unique ways It is an ecumenical collection of papers equally divided between Catholic and Protestant positions that seek to radically renew the classical doctrine of faith hope and love and argues for their essential connection to the praxis of justice It contains eight different approaches each represented by a distinguished theologian and addressing different aspects of the issues and followed by insightful and critical responses It does not merely seek to renew the theological virtues but to also reconstruct them in the demanding context of justice and the contemporary world nor is it simply a treatise on justice but a theoretical and practical

reflection on justice as vital expressions of faith in God hope in God and love of God A non dogmatic and non ideological approach it accommodates both conservative and liberal positions and avoids the separation of the theological virtues from the demands of the contemporary world as well as the separation of justice talk from the theological context of faith hope and love It seeks above all to renew not merely repeat the classical doctrine of faith hope and love in the contemporary context of the urgency of justice and to do so ecumenically comprehensively and from a variety of perspectives and aspects **Us**

Versus Them Jan Doering, 2020 Crime and gentrification are hot button issues that easily polarize racially diverse neighborhoods How do residents activists and politicians navigate the thorny politics of race as they fight crime or resist gentrification And do conflicts over competing visions of neighborhood change necessarily divide activists into racially homogeneous camps or can they produce more complex alliances and divisions In *Us versus Them* Jan Doering answers these questions through an in depth study of two Chicago neighborhoods Drawing on three and a half years of ethnographic fieldwork Doering examines how activists and community leaders clashed and collaborated as they launched new initiatives built coalitions appeased critics and discredited opponents At the heart of these political maneuvers he uncovers a ceaseless battle over racial meanings that unfolded as residents strove to make local initiatives and urban change appear racially benign or malignant A thoughtful and clear eyed contribution to the field *Us versus Them* reveals the deep impact that competing racial meanings have on the fabric of community and the direction of neighborhood change **Fundamental**

Theories of Ethnic Conflict Kyendo, Muli wa, 2019-03-28 This book develops and expands on theories that aim at explaining the root causes of ethnic and racial conflicts The aim is to shift focus from research policies and strategies based on tackling the effects of ethnic and racial conflicts which have so far been ineffective as evidenced by the increase in ethnic conflicts to more fundamental ideas models and strategies Contents extend across many disciplines including evolution biology religion communication mythology and even introspective perspectives Drawn from around the world contributors to the book are respected and experienced award winning authors scholars and thinkers with deep understanding of their special fields of contribution The book was inspired by the conditions in Kenya where ethnic violence flared up with terrifying consequences following a disputed election in 2008 Although the conflict was resolved by the intervention of the international community Kenyans like many other Africans continue to live in fear of ethnic conflicts breaking out with more disastrous consequences The book will be useful to policy makers NGOs and others involved in promoting peace It will also be useful in guiding research and as a text book in universities and colleges
